

INVASION OF CUBA SOON

General Miles and Staff Leave For Tampa Tonight.

VOLUNTEERS LIKELY TO AID

Many Under Orders to Proceed to Southern Points.

CUBAN TROOPS ARE ALL RIGHT.

Representatives of the Rebels Say Recent Advices Bear Out Their Claim That There Are About 40,000 Men Either Armed or Ready to Take Arms. About 25,000 Reasonably Equipped. Entire Harmony Said to Exist Between the War Department and Cuban Authorities—Lieutenant Rowan Expected Soon to Report.

WASHINGTON, May 12.—The army movement on Cuba is now fairly launched, and there has developed a concerted effort all along the line to begin aggressive operations on a big scale for the ejectment of the Spanish troops and government from the pearl of the Antilles. An order given by the war department for the purchase of 5,000,000 rations is an earnest of the scale on which preparations are making for invasion of Spain's territory. Of this vast quantity one-fourth is to go to the Philippines by way of San Francisco and the balance to Cuba. For some reason that was not discoverable there appeared to be a temporary check in the practical working out of the plans of the war department for this Cuban movement.

It is announced that General Miles with a numerous staff will leave Washington tonight directly for Tampa. The department has made a great many changes in the original program laid down for the concentration of troops, and many bodies of volunteers that were originally slated for one of the great concentration camps have found themselves suddenly under orders to proceed direct to southern points, so that soon volunteers from the east and middle west will be moving swiftly to Florida and the gulf, while from the far west the cars will be carrying troops to San Francisco. The news in connection with the renewal of General Miles' orders to Tampa is pretty substantial evidence of a very early movement of troops in strong force to Cuba, while the Philippine progress of course has been definitely fixed for some days.

The special orders on this subject have been issued and provide that the general and his staff and other officers who accompany him shall proceed to Tampa and other points that may be designated "for temporary duty." The following named officers will accompany the general: Captain Francis Michler, Captain M. P. Morse, Lieutenant Colonel J. C. Gilmore, Major General Joseph O. Breckinridge and Brigadier General John I. Rodgers of the volunteer army, Colonel Charles R. Greenleaf, Lieutenant Colonel A. L. Wagner, chief of the military information division of the war department; Major Henry B. Osgood, commissary, Major Eli L. Huggins, Captain S. Y. Seyburn, Captain Hugh L. Scott and First Lieutenant Edward Anderson.

Colonel Wagner will have charge of the bureau of military intelligence, while the army is in the field. He will be assisted in his work by Lieutenant Anderson, who is at present in his office, and other officers in the field will be detailed as the work of the bureau increases. General Miles will have his headquarters in the field and a great mass of papers, charts and other data of a military character have been packed in trunks ready for shipment to Tampa. Several of the clerks and messengers in the department have been ordered to be ready to accompany General Miles and his staff.

Brigadier General John L. Rodgers, the senior officer of the artillery branch of the army, has been appointed chief of artillery of the army and placed in charge of the heavy artillery of all the coast defenses. Until recently he was in command of the Fifth artillery, stationed at Governors Island, New York city, and arrived in this city under telegraphic orders from the war department and was officially notified of his assignment to the position indicated. The office of chief of artillery was created during the Civil war, but was abolished at its conclusion. It was so successful in operation, however, during that crisis that it has been deemed advisable to recreate it for the present war. As such officer, General Rodgers will have immediate supervision of all the land defenses along the coast.

The courier who is on his way here with letters from General Gomez to President Palma of the Cuban delegation has stopped at Tampa and will not reach here for a day or two. General Nunez of the Cuban army, after conferring with the Cuban authorities here and with General Miles, has left for Tampa. Although the courier will

bring detailed advices from Gomez, the Cuban officials here are well informed on the general status of the Cuban forces in the field, and this subject has been gone over fully with the war department officials. In a general way it is stated that entire harmony exists between the Cuban authorities and the war department as to the resources and effective fighting force of General Gomez and General Garcia.

The Cuban authorities are ready and willing to have the fullest co-operation by the United States troops on Cuban soil, and it is said there is no ground for reports that General Gomez desires to act singlehanded in securing Cuban independence. Naturally, it is said in high Cuban quarters, General Gomez feels some pride in having sustained a war for the last three years singlehanded against the organized forces of Spain and doubtless believes that in time he could achieve a complete victory. But, it is said, he is fully alive to the fact that this would take time and a large increase in the arms, ammunition, rations and medicine at his disposal. In the meantime he has only exercised a prudent course in pointing out the climatic dangers of sending a large United States force into Cuba.

Concerning the strength of the Cuban forces in the field the Cuban representatives here say that the recent advices fully bear out all that the Cuban authorities have claimed, namely, that there are in all about 40,000 men either under arms or ready to take arms as soon as guns and ammunition are at hand. Of this number it is said that about 15,000 lack arms and equipment, leaving about 25,000 now in the field and reasonably equipped, although additional ammunition and supplies would be most advantageous to these latter. This 25,000 does not exist in any one camp, or series of camps, in the usual sense of organized military operations. On the contrary, Cuban officials say their forces have adopted the tactics essential to a fight against heavy odds and have scattered their forces into small groups over an area of 3,000 square miles.

These small groups are best able to carry on a guerilla warfare which diverts Spanish attention to every part of the island. The immediate command of Gomez is said to number 3,000 men and is located in the rich Santa Clara district. Some distance away, in the province of Santiago de Cuba, are the forces under General Garcia, the several bands of which are said to aggregate 15,000 men. The distance of Garcia from Gomez is said to make a juncture between them impracticable, as there are no means of speedy communication.

It is expected that Lieutenant Rowan, the United States officer who made a daring and successful landing in Cuba and proceeded inland to General Garcia's camp, will arrive at Key West today. This doubtless will afford the authorities here much more data on the situation of the insurgents. It is understood that Lieutenant Rowan already has stated, whether by report otherwise is known, that the Cubans in General Garcia's district occupy a number of towns vacated by the Spanish and that the Cuban administration of these towns is in the hands of "fine men." This last expression gives special satisfaction to Cubans here.

They are hopeful that President Masso will remain in the western provinces and be ready to come with his cabinet to the first large seaport city that is occupied and there set up the civil administration of the republic of Cuba. It had been understood that he intended to move his headquarters to the eastern end of the island, where military operations are not likely to occur, but this plan is likely to be changed so as to keep him near the points of probable occupation in the west.

THE RIOTING IN ITALY.

Its Terrible Nature Confirmed by a Dispatch Received in London.

LONDON, May 12.—The Rome correspondent of The Times sends by mail a long dispatch practically confirming the terrible nature of the rioting at Milan and elsewhere.

ROME, May 12.—A semi-official note asserts that "tranquility prevails throughout the kingdom."

Debated an Arbitration Bill.

WASHINGTON, May 12.—For more than three hours the senate discussed what is known as the railway arbitration bill—a measure designed to adjust, by means of arbitration, differences that may arise between railroad officials and their employees. Mr. Hoar offered an amendment, which was accepted, providing that no injunction should be issued which would compel the laborer against his will to carry out any contract for personal labor or service.

DEWEY NOW REAR ADMIRAL.

The Senate Has Confirmed His Nomination by the President.

WASHINGTON, May 12.—The senate has confirmed the nomination, by the president, of George Dewey to be a rear admiral.

Cigarette Smokers Rejected.

WASHINGTON, May 12.—The large number of rejections of volunteers has caused much comment in the army medical corps. However, the physicians who have conducted the examinations say that outside of the ranks of cigarette smokers there are even fewer rejections than there were in the days of the Civil war. Among habitual users of the cigarettes the rejections are about 90 per cent. Many have weak hearts.

GOVERNOR OF PHILIPPINES

General Merritt Reported to Have Been Appointed Ruler.

WILL HEAD THE INVASION.

He Has Been Appointed to Command the Volunteers.

CRUISER CHARLESTON TO SAIL.

She Will Be Dispatched Immediately to the Relief of Admiral Dewey—Some of the Troop Ships Will Go Unprotected, While Others, It Is Said, Will Be Conveyed by the Philadelphia—Volunteers That Will Be Sent on the Philippines Expedition—One Reason For Sending the Charleston So Hurriedly Is Fear That Rebels Will Resort to Massacre.

SAN FRANCISCO, May 12.—The president has appointed General Wesley Merritt of the regular army to the command of the volunteers from the Pacific coast.

General Merritt will rank as brigadier general and will lead the invasion of the infantry upon the Philippines. He has been proclaimed governor general of the Philippines and as soon as possible will establish his position as such at Manila.

The quota of California volunteers is now complete. The two battalions have been mustered into service and are now stationed at the Presidio and the cavalry went to Ft. Mason. The work of supplying the soldiers with supplies is progressing as rapidly as possible, but owing to the large number of men to be outfitted this work will not be finished for some days. The order from Washington directing that the Charleston proceed to sea at once has changed plans regarding the departure of the troops for Manila.

Instead of being conveyed by the Charleston the City of Pekin and the Australia will proceed unprotected by a warship, but it is stated unofficially that the City of Sydney and other transports, which are to sail later, will be looked after by the Philadelphia, which is being prepared for service as rapidly as possible. The transports will call at Honolulu to coal and take on fresh supplies.

WASHINGTON, May 12.—The navy department has decided to have the cruiser Charleston start at once on its relief mission to Admiral Dewey's fleet at Manila.

Owing to the hurried departure of the Charleston it is not expected that she will wait for any considerable number of troops, as these will follow later on the other relief ships.

Her coal bunkers are rather limited, so that she probably will have to stop at Honolulu to recalc. Her trip to Manila will take about two weeks. The City of Pekin, which will follow her, is a very fleet merchantman, capable of being pushed to 18 knots or more, so that even with the handicap she has of starting several days after the Charleston, there is a prospect she may overhaul her in the race across the Pacific and reach Manila first.

The Charleston is commanded by Captain Henry Glass. Aside from carrying ammunition and supplies to Admiral Dewey the Charleston will prove a valuable adjunct to his squadron. She will come next to the Olympia and Baltimore in point of size and effectiveness.

In determining upon this speedy departure of the Charleston the authorities have had in mind not only the need of giving early relief to Admiral Dewey, but also have been somewhat apprehensive of the attitude of the Philippine insurgents.

The news reports reaching here from the Philippines indicating that the insurgent forces might resort to massacre are received with serious attention by officials, as they recognize that our present position in controlling Manila bay imposes a certain degree of responsibility in seeing that civilized methods prevail and that the insurgents do not resort to lawless and incendiary measures.

The following volunteer troops will go to San Francisco:

Wyoming, one battalion of infantry; Colorado, one regiment of infantry; Kansas, one regiment of infantry; Montana, one regiment of infantry; Nebraska, one regiment of infantry; Utah, two light batteries and one troop of cavalry; North Dakota, two battalions of infantry; Idaho, two battalions of infantry.

The war department purchased \$5,000,000 rations, one-fourth for the Philippine troops and the balance for Cuba. The presumption is that a number of these men will be sent with the expedition to the Philippines, although it by no means follows that all will go, as some will be retained to take the places of such of the regular army men who, because of their experience in actual military life, will be sent across the ocean.

MAY TACKLE DEWEY.

Spain Declares That a Formidable Force Will Be Sent Against the Admiral at Manila.

LONDON, May 12.—Special dispatches from Madrid say it is officially declared that the government of Spain has no intention of allowing Rear Admiral Dewey to rest upon his laurels. About 30,000 men of the reserves of the Spanish army have been ordered to rejoin the colors, and it is added that a formidable expedition is being organized for dispatch to the Philippine islands.

A special dispatch from Madrid says: Admiral Bermejo, minister of marine, denies Cape Verde squadron returned to Cadiz. Bermejo says the fleet is now where it ought to be under orders.

MADRID, May 12.—In the chamber Senor Sagasta replied to Senor Salmeron's attack on the present regime, retorting that the state of anarchy which existed in Spain during the short lived Republican regime under Salmeron made Spain the laughing stock of the world.

The premier defended the policy of the government in "doing its utmost to avoid war while the Yankees were playing a foul game." He repeated his appeal for union, adding that whoever sowed discord was not a patriot. He concluded his speech by declaring that the government would prosecute the war a outrance.

SCHLEY PRAISES DEWEY.

He Says the Mantle of Perry and Farragut Must Fall on His Shoulders.

OLD POINT COMFORT, Va., May 12.—Commodore Winfield Schley, commanding the flying squadron, for the first time has consented to give his views upon the victory won by Admiral Dewey at Manila. He said:

"Admiral Dewey's victory at Manila must deservedly take its place side by side with the greatest navy victories of the world's history. It has been urged that the results show such decided inferiority in resistance as compared with the vigor of attack that there is a diminution of the glory, but that is untrue for it must first be remembered that the greatness of Dewey's success lies in the calm courage and daring displayed in his decision to enter a strange harbor, at dark, under the guns of many forts and braving the perhaps hidden torpedo or mine.

"It strikes me that with several advantageous fortified positions the preponderance of advantage was certainly with the enemy and that with the great daring displayed by Dewey there must fall upon his shoulders the mantle of Perry and Farragut. I would note, too, that superior education, which brings intelligence, coupled with perfection in marksmanship, aided greatly in winning the day and will, I believe, contribute to future victories."

WAR REVENUE BILL.

Consideration of Measure About Finished. Democratic Amendments Passed.

WASHINGTON, May 12.—The senate committee on finance has completed the consideration of the war revenue bill, with exception of some administrative features, which will be taken up today. There is now no doubt that the bill will be reported some time today, but the understanding is that it will not be taken up for consideration in the senate before Monday.

All the Democratic amendments were voted in by the solid Democratic vote assisted by Senator Jones of Nevada.

They include a corporation tax of one-half of 1 per cent, a provision for the coinage of the silver seigniorage and another for the issuance of \$150,000,000 of greenbacks. They strike out the bond provision.

FATAL GAS EXPLOSION.

Three Men Die of Injuries Received in a Waterworks Tunnel.

CLEVELAND, May 12.—Ten men were injured by an explosion of gas in the new waterworks tunnel under the lake. The diggers were 6,300 feet from the shore. The explosion was caused by one of the men striking a match to light his pipe. Instantly there was a blinding flash of flame and a terrific roar, filling the tunnel with smoke and blinding the diggers. An alarm was at once sent to the powerhouse on shore and a relief expedition was organized among other workmen for the rescue of their comrades.

Blackened, blinded and stunned, the injured men were carefully transported to the shaft and thence conveyed by ambulance to hospitals.

Three of the injured men have died. They are Michael Tovelin, James Anderson and Michael McFadden. Two others, Tony Degrad and Thomas Corrigan, are expected to die.

Spanish Ship Probably Destroyed.

LONDON, May 12.—A Spanish torpedo-boat destroyer is believed to have been blown up near Gibraltar, with the loss of all hands.

Key West Short of Water.

KEY WEST, May 12.—There is a great scarcity of drinking water here. Ordinary water is 10 cents a gallon and bottled water \$1 a bottle.

THROUGH HIS HEART

John Guthridge Sent a Heavy Rifle Ball

KILLING HIMSELF INSTANTLY

One of the Principal Stockholders of Wellsville's New Rolling Mill Ended His Life at 2:30 O'clock This Afternoon—He Had Business Troubles.

The people of Wellsville were startled this afternoon at 2:30 o'clock by the announcement that John Guthridge had shot himself through the heart and was dead.

Mr. Guthridge resided in Main street, between Tenth and Eleventh, and at the time given went to his room in the second story, and, placing the muzzle of a rifle of large calibre at his breast, fired the gun. The ball passed through his heart and body, and made a large hole in the ceiling.

The sound of the explosion was heard by Harry Jenkins, who hastened to the room and found the unfortunate man on the floor with the rifle beside him.

Doctor Holland was called, but when he arrived Guthridge was dead. Coroner Straughn was notified, but said he would hold no inquest.

Mr. Guthridge's wife died some time ago, and he lived in the house with his son and daughter. Last Tuesday his daughter asked what he was brooding about, and he said his troubles would not be at an end until he was lying on the hillside.

A reporter called on Mr. Finley, Mr. Guthridge's business partner. He said he believed the suicide was caused by business troubles, but he did not think they were so important as to cause the rash step. Beyond that he had nothing to say.

Mr. Guthridge was 50 years old, and formerly lived at Niles.

DISAGREED.

The Jury Could Not Find a Verdict in a Lisbon Case.

LISBON, May 12.—[Special]—Edward Richards, who was charged with burglarizing the Erie freight depot at this place, was tried in common pleas court yesterday. The case went to the jury at 2 o'clock, and at 9 o'clock they came in with the announcement that they could not agree.

Frank Geisse, against whom D. T. Lawson recovered judgment for \$17.70 in a Wellsville court, has appealed to common pleas.

CONTEMPT OF COURT

Was the Charge on Which a Wellsville Man Went to Court.

LISBON, May 12.—[Special]—Harry Sheckler, of Wellsville, was arrested last evening and brought here today to answer to a charge of contempt of court. He failed to answer a subpoena before the grand jury. He was fined the costs, amounting to \$75, and was committed to jail until paid.

BOUGHT AN INTEREST.

An Altoona Man Is Now Connected With the Street Railway.

L. W. Healy, of Altoona, Pa., today purchased an interest in the street railway, and will move his household goods to the city at once. Mr. Healy will take an active interest in the management of the road, as Mr. Hoefgen cannot spend all of his time here.

Returned to the Regiment.

Sergeant Kinsey, who was called home from Camp Bushnell by the serious illness of his child, returned to Columbus this evening.

Fair Is Home.

Cecil M. Fair, who was discharged from Company E, of the Eighth regiment at Camp Bushnell, yesterday, returned home this morning on the early eastern train.

The Engine Broke.

The noon train was 40 minutes late today, caused by a break in the regular engine, and the changing of another one at Alliance.

I would note, too, that superior education, which brings intelligence, coupled with perfection in marksmanship, aided greatly in winning the day and will, I believe, contribute to future victories."

WAR REVENUE BILL.

Consideration of Measure About Finished. Democratic Amendments Passed.

WASHINGTON, May 12.—The senate committee on finance has completed the consideration of the war revenue bill, with exception of some administrative features, which will be taken up today. There is now no doubt that the bill will be reported some time today, but the understanding is that it will not be taken up for consideration in the senate before Monday.

All the Democratic amendments were voted in by the solid Democratic vote assisted by Senator Jones of Nevada.

They include a corporation tax of one-half of 1 per cent, a provision for the coinage of the silver seigniorage and another for the issuance of \$150,000,000 of greenbacks. They strike out the bond provision.

FATAL GAS EXPLOSION.

Three Men Die of Injuries Received in a Waterworks Tunnel.

CLEVELAND, May 12.—Ten men were injured by an explosion of gas in the new waterworks tunnel under the lake. The diggers were 6,300 feet from the shore. The explosion was caused by one of the men striking a match to light his pipe. Instantly there was a blinding flash of flame and a terrific roar, filling the tunnel with smoke and blinding the diggers. An alarm was at once sent to the powerhouse on shore and a relief expedition was organized among other workmen for the rescue of their comrades.

Blackened, blinded and stunned, the injured men were carefully transported to the shaft and thence conveyed by ambulance to hospitals.

Three of the injured men have died. They are Michael Tovelin, James Anderson and Michael McFadden. Two others, Tony Degrad and Thomas Corrigan, are expected to die.

Spanish Ship Probably Destroyed.

LONDON, May 12.—A Spanish torpedo-boat destroyer is believed to have been blown up near Gibraltar, with the loss of all hands.

Key West Short of Water.

KEY WEST, May 12.—There is a great scarcity of drinking water here. Ordinary water is 10 cents a gallon and bottled water \$1 a bottle.

THROUGH HIS HEART

John Guthridge Sent a Heavy Rifle Ball

KILLING HIMSELF INSTANTLY

One of the Principal Stockholders of Wellsville's New Rolling Mill Ended His Life at 2:30 O'clock This Afternoon—He Had Business Troubles.

The people of Wellsville were startled this afternoon at 2:30 o'clock by the announcement that John Guthridge had shot himself through the heart and was dead.

Mr. Guthridge resided in Main street, between Tenth and Eleventh, and at the time given went to his room in the second story, and, placing the muzzle of a rifle of large calibre at his breast, fired the gun. The ball passed through his heart and body, and made a large hole in the ceiling.

The sound of the explosion was heard by Harry Jenkins, who hastened to the room and found the unfortunate man on the floor with the rifle beside him.

Doctor Holland was called, but when he arrived Guthridge was dead. Coroner Stranghn was notified, but said he would hold no inquest.

Mr. Guthridge's wife died some time ago, and he lived in the house with his son and daughter. Last Tuesday his daughter asked what he was brooding about, and he said his troubles would not be at an end until he was lying on the hillside.

A reporter called on Mr. Finley, Mr. Guthridge's business partner. He said he believed the suicide was caused by business troubles, but he did not think they were so important as to cause the rash step. Beyond that he had nothing to say.

Mr. Guthridge was 50 years old, and formerly lived at Niles.

DISAGREED.

The Jury Could Not Find a Verdict in a Lisbon Case.

LISBON, May 12.—[Special]—Edward Richards, who was charged with burglarizing the Erie freight depot at this place, was tried in common pleas court yesterday. The case went to the jury at 2 o'clock, and at 9 o'clock they came in with the announcement that they could not agree.

Frank Geisse, against whom D. T. Lawson recovered judgment for \$17.70 in a Wellsville court, has appealed to common pleas.

CONTEMPT OF COURT

Was the Charge on Which a Wellsville Man Went to Court.

LISBON, May 12.—[Special]—Harry Sheckler, of Wellsville, was arrested last evening and brought here today to answer to a charge of contempt of court. He failed to answer a subpoena before the grand jury. He was fined the costs, amounting to \$75, and was committed to jail until paid.

BOUGHT AN INTEREST.

An Altoona Man Is Now Connected With the Street Railway.

L. W. Healy, of Altoona, Pa., today purchased an interest in the street railway, and will move his household goods to the city at once. Mr. Healy will take an active interest in the management of the road, as Mr. Hoefgen cannot spend all of his time here.

Returned to the Regiment.

Sergeant Kinsey, who was called home from Camp Bushnell by the serious illness of his child, returned to Columbus this evening.

Fair Is Home.

Cecil M. Fair, who was discharged from Company E, of the Eighth regiment at Camp Bushnell, yesterday, returned home this morning on the early eastern train.

The Engine Broke.

The noon train was 40 minutes late today, caused by a break in the regular engine, and the changing of another one at Alliance.

CALCUTTA IS AROUSED

Because Some Thief Has Appeared at the Village.

HARNESS IS HIS SPECIALTY

He Takes It Whenever He Finds an Opportunity. One of His Principal Victims Being a Minister Who Lost a Considerable Amount.

Residents of Calcutta are up in arms against a thief who for the past few weeks has been stealing everything of any value that he can get his hands on.

His latest victims are Reverend Montgomery and John Farmer. From these two men the thief took over \$50 worth of property on Sunday night.

Reverend Montgomery yesterday morning discovered his barn had been entered during the night. Upon investigation he found a saddle, lap robe, whip, gum coat, buggy harness and several minor articles were missing. From Farmer two new collars were taken the same night.

Several farmers living in that vicinity have missed farming implements and harness for some weeks past, but as yet have been unsuccessful in their attempt to find the thief. A number of tramps have been seen about Calcutta recently and when anything is missed from a stable it is said a stranger goes with it at the same time. Some of the farmers are on the watch, and if anyone is caught in the act there will be some hot scenes.

THROWN FROM A BUGGY.

A Calcutta Road Resident Had a Narrow Escape.

Essie, the young daughter of Thomas Stevenson, living in Calcutta road near the cemetery, met with what might have been a serious accident yesterday.

While out driving the horse became frightened and ran off. The horse made a short turn and in doing so upset the buggy, throwing the girl to the ground. The top of the buggy was a complete wreck, but the girl escaped with but a few scratches.

Card of Thanks.

We thank our numerous friends for the many acts of kindness and expressions of sympathy bestowed in our deep sorrow and bereavement. These add luster to the "silver lining" in our cloud of sorrow. May our Savior reward you for "ye did it unto him." May your floral offerings return to you many fold to strew your pathway with fragrance and beauty, and when tired, you too, lie down to sleep, may loving hands bedeck your casket, and your redeemed spirit fly as a bird to join our loved one in the realms of glory, is our earnest prayer.

J. C. McCLAIN AND CHILDREN.

The Oldest Juror.

The veteran juror this term of court is Philip Case, of Knox township. He is probably the oldest man on the jury, and performed service as a juror 25 years ago. He is a level-headed gentleman.

Will Return Tonight.

Reverend Weary, rector of St. Stephen's church, and the delegates who left Monday to attend a meeting of the diocese in Cleveland, will return to the city this evening.

Grand display of millinery Saturday, Monday and Tuesday, May 14, 16 and 17, at M. A. Farrell's, 146 Fifth street. Store open every evening until July.

Firemen in Town.

A number of the Leetonia firemen who attended the convention yesterday at Toronto, spent last night in the city.

WAITING THE WORD

TO LEAVE CAMP.

Most of the Troops at Camp Bushnell Ready to Go Where Ordered—All Not Fully Equipped.

COLUMBUS, May 12.—The time for moving troops from camp is not yet settled. It is probable that some regiments will get away from Camp Bushnell by the latter part of the week, but most of the officers are assured that none can be moved before that time.

An intimation was received by the officials at headquarters that orders would soon be received from the war department ordering four regiments to Chickamauga at once. These regiments will be the First, Second, Third and Fourth. General Axline refused to make any statement upon the matter.

As far as the Ohio officials are concerned, one regiment is already off their hands. The First is fully armed, with the exception of 28 men, for whom no arms will be furnished, as they are in excess of the number allowed the regiment by governmental orders. The Fourteenth was armed with the rifles taken from the Seventeenth regiment. The other regiments are not yet fully armed and equipped, but can be fitted out by tonight in case of emergency.

The delay from now on will rest with the government officials. None of the men have been supplied with campaign shoes, underclothing or the other supplies which render life in the field endurable to a soldier. They are given guns and side arms, uniforms, caps, blankets, etc., by the state, but the rest of their equipment, including tents, must be furnished by the government.

A large consignment of arms arrived from Philadelphia and were distributed to the men. Ten thousand pieces of mail matter were handled at the camp.

THREE PERISHED.

Big Fire in Philadelphia Destroyed Life and \$225,000 in Property.

PHILADELPHIA, May 12.—Three persons were burned to death and property amounting to \$225,000 destroyed by fire which originated in the big six-story building occupied by McCadden Bros., wholesale dealers in toys and fireworks, 619 Market street. The dead are: William McCadden, a member of the firm.

Charles Richardson, a packer. Miss Evelyn G. Caldwell, stenographer and typewriter.

Roasted His Store Tea.

The country storekeeper was engaged in a lively argument with Colonel Bill Cottonhead as to the probable effect of the Bradley-Hunter split upon the future of the Republican party in Kentucky, when old Tom Moseley, one of the oldest mountaineers in Letcher county, rode up and dismounted.

"Hev you uns airy bit of store tea?" he queried, as he rifled his yarn sock for an annoying cocklebur.

"Why, yes, Moseley, plenty of it," replied Brown. "Would you like to have some today?"

"Well, I guess not terday, Frank. Jess never had seen eny, an I thought of you uns hed eny, I'd laik tuh look at hit."

Brown considerably took the old man back into the rear room, where a freshly opened caddy of Young Hyson was standing alongside the counter. Running his fingers down into the depths of the lard colored mass, he drew out a handful, which he held up to the old man's gaze.

The old fellow's eyes sparkled, and a strange quivering was noticeable about his lips.

"Waal, I swow. An thet air store tea, air hit?"

"It certainly is," Brown asserted. "Better put up a pound for you?"

"What mout hit be wuth?"

"It's worth 75 cents a pound, Moseley, but as you are an old friend and have never tried any of it you may have it for 50 cents."

"Yuh kin put me up er poun."

Five days later the old man dropped into the store for a tobacco supply, and Brown, after a lengthy conversation touching on mountain topics in general, queried:

"How did you like your tea, Moseley?"

"Fa'r tuh middlin, Frank; fa'h tuh middlin; mouter bin bettah, but I guess laikly tuh ole woman used a leetle tew much grease in roastin hit."—Louisville Post.

How She Viewed It.

Perhaps she was jealous, perhaps she wasn't; anyway, she had just heard of the engagement and she could not help noticing the engaged girl's pride in her captured youth.

"Really," she said, and her lips curled scornfully, "there's no accounting for tastes, is there? Some people think they have won the game when they get the booty prize."—Chicago Post.

Senators by Popular Vote.

WASHINGTON, May 12.—After refusing to consider the senate bill restricting immigration, the house took up and devoted the session to the house resolution to amend the constitution so as to provide for the election of senators by a direct vote. An amendment by Mr. Underwood (Ala.), making selection by popular vote mandatory, was adopted and the resolution was then passed.

Few men understand women. When a woman is weak, sickly, nervous, fretful, irritable and despondent, the average husband imagines that she is simply out of temper. An average husband will probably simply go out and leave her alone for awhile, "to have it out with herself." A bad husband is liable to go off and get drunk. The fact is that the poor wife is suffering from illness of a description that breaks a woman down sooner than anything else. Her back is weak and aches. Her "sides stitch." She has pains and a dragging sensation in the abdomen. Her appetite is touchy and she suffers from nausea. She has sick headaches, giddiness, dizziness, cold chills, flushings of heat, shortness of breath, palpitation, disturbed sleep, frightful dreams, irregularities and nervous and trembling sensations. Her pain-racked nerves are a continual torture.

A woman in this condition is suffering from weakness and disease of the delicate and important organs concerned in wifehood and motherhood. Dr. Pierce's Favorite Prescription makes these organs strong and well. It allays inflammation, heals ulceration and soothes pain. It has transformed thousands of sickly, nervous, petulant, childless and unhappy women into happy, healthy, helpful, amiable wives and mothers. It banishes the discomforts of the period of prospective maternity and makes baby's advent easy and almost painless. Good medicine dealers sell it and an honest druggist does not try to urge upon you an inferior substitute for a little extra profit.

If you want a 100-page home doctor-book, send 21 one-cent stamps, to cover mailing only, for a paper-covered copy of Dr. Pierce's Common Sense Medical Adviser. French cloth binding 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

GREAT GRUMBLERS.

Grumbling Will Cease if East Liverpool People Follow This Citizen's Advice.

When the kidneys are sick they grumble.

You hear them clear through the back. You feel them clear through the body. They grumble when overtaxed. Know how the kidneys grumble? It's a simple thing; your back will tell you.

Backache is the first grumbling warning.

The kidneys give it and if you heed it not.

Look out for trouble, it will surely come.

Urinary trouble, kidney trouble and many miseries.

Doan's Kidney Pills are made for kidney ills.

They cure every form of kidney ill.

The experience of East Liverpool people proves this.

Here's a case in point:

Mrs. Wm. James, who lives at 283 Third street, says: "I was troubled off and on for eight years with a weakness of the back and kidneys, a dull, aching pain across my loins, up under my shoulder blades, and rheumatic pain in my right shoulder. I was very susceptible to changes in the weather, and was so bad at times that I could scarcely stand and support my own weight. The trouble affected my nervous system, causing frequent fluttering of the heart and a shortness of breath. I generally resorted to porous plasters, but the relief was only temporary. I got Doan's Kidney Pills at the W. & W. Pharmacy, and obtained relief almost at once. The symptoms all left, and there was nothing wrong with my kidneys after the treatment. I felt much better and stronger generally."

Doan's Kidney Pills are for sale by all dealers. Prices 50 cents per box. By mail on receipt of price by Foster-McLure Co., Buffalo, N. Y., sole agents for United States. Remember the name, Doan's and take no other.

PROMISES JAPAN'S AID.

Professor Fukushima on the Friendly Feelings of the "Yankees of the East."

Professor F. Fukushima, who delivered an address recently at Terre Haute, Ind., on "Japanese Civilization" and is a member of the faculty of the college at Tokyo, says the people of this country may depend on the aid of the "Yankees of the east" if the European powers assist Spain.

"The Japanese," said the professor, "are willing and anxious to lend a hand to the Americans. They showed a few years ago what good fighters they are. They covered themselves with glory in their conflict with the hated Chinese, and when Brother Jonathan needs the aid of their 47 first class warships and their 35 torpedo boats it will be given in a twinkling."

Professor Fukushima is a graduate of Cornell.—New York Sun.

Fined \$750 For Having Short Lobsters.

In the municipal court of Boston Isaac C. Harvey, charged with having in his possession 116 lobsters each of which was shorter than the length required by law, which is 10½ inches, was recently fined \$5 for each lobster, aggregating \$780.—Boston Transcript.

A Calcutta Road Resident Had a Narrow Escape.

Essie, the young daughter of Thomas Stevenson, living in Calcutta road near the cemetery, met with what might have been a serious accident yesterday.

While out driving the horse became frightened and ran off. The horse made a short turn and in doing so upset the buggy, throwing the girl to the ground. The top of the buggy was a complete wreck, but the girl escaped with but a few scratches.

Card of Thanks.

We thank our numerous friends for the many acts of kindness and expressions of sympathy bestowed in our deep sorrow and bereavement. These add luster to the "silver lining" in our cloud of sorrow. May our Savior reward you, for "ye did it unto him." May your floral offerings return to you many fold to strew your pathway with fragrance and beauty, and when tired, you too, lie down to sleep, may loving hands bedeck your casket, and your redeemed spirit fly as a bird to join our loved one in the realms of glory, is our earnest prayer.

J. C. McCLAIN AND CHILDREN.

The Oldest Juror.

The veteran juror this term of court is Philip Case, of Knox township. He is probably the oldest man on the jury, and performed service as a juror 25 years ago. He is a level-headed gentleman.

Will Return Tonight.

Reverend Weary, rector of St. Stephen's church, and the delegates who left Monday to attend a meeting of the diocese in Cleveland, will return to the city this evening.

Grand display of millinery Saturday, Monday and Tuesday, May 14, 16 and 17, at M. A. Farrell's, 146 Fifth street. Store open every evening until July.

Firemen in Town.

A number of the Leetonia firemen who attended the convention yesterday at Toronto, spent last night in the city.

WAITING THE WORD TO LEAVE CAMP.

Most of the Troops at Camp Bushnell Ready to Go Where Ordered—All Not Fully Equipped.

COLUMBUS, May 12.—The time for moving troops from camp is not yet settled. It is probable that some regiments will get away from Camp Bushnell by the latter part of the week, but most of the officers are assured that none can be moved before that time.

An intimation was received by the officials at headquarters that orders would soon be received from the war department ordering four regiments to Chickamauga at once. These regiments will be the First, Second, Third and Fourth. General Axline refused to make any statement upon the matter.

As far as the Ohio officials are concerned, one regiment is already off their hands. The First is fully armed, with the exception of 28 men, for whom no arms will be furnished, as they are in excess of the number allowed the regiment by governmental orders. The Fourteenth was armed with the rifles taken from the Seventeenth regiment. The other regiments are not yet fully armed and equipped, but can be fitted out by tonight in case of emergency.

The delay from now on will rest with the government officials. None of the men have been supplied with campaign shoes, underclothing or the other supplies which render life in the field endurable to a soldier. They are given guns and side arms, uniforms, caps, blankets, etc., by the state, but the rest of their equipment, including tents, must be furnished by the government. A large consignment of arms arrived from Philadelphia and were distributed to the men. Ten thousand pieces of mail matter were handled at the camp.

THREE PERISHED.

Big Fire in Philadelphia Destroyed Life and \$225,000 in Property.

PHILADELPHIA, May 12.—Three persons were burned to death and property amounting to \$225,000 destroyed by fire which originated in the big six-story building occupied by McCadden Bros., wholesale dealers in toys and fireworks, 619 Market street. The dead are: William McCadden, a member of the firm.

Charles Richardson, a packer. Miss Evelyn G. Caldwell, stenographer and typewriter.

Roasted His Store Tea.

The country storekeeper was engaged in a lively argument with Colonel Bill Cottonhead as to the probable effect of the Bradley-Hunter split upon the future of the Republican party in Kentucky, when old Tom Moseley, one of the oldest mountaineers in Letcher county, rode up and dismounted.

"Hev you uns airy bit of store tea?" he queried, as he rifled his yarn sock for an annoying cocklebur.

"Why, yes, Moseley, plenty of it," replied Brown. "Would you like to have some today?"

"Well, I guess not terday, Frank. Jess never had seen any, an I thought of you uns hed eny, I'd laik tuh look at hit."

Brown considerably took the old man back into the rear room, where a freshly opened caddy of Young Hyson was standing alongside the counter. Running his fingers down into the depths of the lead colored mass, he drew out a handful, which he held up to the old man's gaze.

The old fellow's eyes sparkled, and a strange quivering was noticeable about his lips.

"Waal, I swow. An thet air store tea, air hit?"

"It certainly is," Brown asserted. "Better put up a pound for you?"

"Whut mout hit be wath?"

"It's worth 75 cents a pound, Moseley, but as you are an old friend and have never tried any of it you may have it for 50 cents."

"Yuh kin put me up er poun."

Five days later the old man dropped into the store for a tobacco supply, and Brown, after a lengthy conversation touching on mountain topics in general, queried:

"How did you like your tea, Moseley?"

"Fa'r tuh middlin, Frank; fa'h tuh middlin; mouter bin bettah, but I guess laikly tuh ole woman used a leetle tew much grease in roastin hit."—Louisville Post.

How She Viewed It.

Perhaps she was jealous, perhaps she wasn't; anyway, she had just heard of the engagement and she could not help noticing the engaged girl's pride in her captured youth.

"Really," she said, and her lips curled scornfully, "there's no accounting for tastes, is there? Some people think they have won the game when they get the booty prize."—Chicago Post.

Senators by Popular Vote.

WASHINGTON, May 12.—After refusing to consider the senate bill restricting immigration, the house took up and devoted the session to the house resolution to submit to the states a proposition to amend the constitution so as to provide for the election of senators by a direct vote. An amendment by Mr. Underwood (Ala.), making selection by popular vote mandatory, was adopted and the resolution was then passed.

Few men understand women. When a woman is weak, sickly, nervous, fretful, irritable and despondent, the average husband imagines that she is simply out of temper. An average husband will probably simply go out and leave her alone for awhile, "to have it out with herself." A bad husband is liable to go off and get drunk. The fact is that the poor wife is suffering from illness of a description that breaks a woman down sooner than anything else. Her back is weak and aches. Her "sides stitch." She has pains and a dragging sensation in the abdomen. Her appetite is touchy and she suffers from nausea. She has sick headaches, giddiness, dizziness, cold chills, flushings of heat, shortness of breath, palpitation, disturbed sleep, frightful dreams, irregularities and nervous and trembling sensations. Her pain-racked nerves are a continual torture.

A woman in this condition is suffering from weakness and disease of the delicate and important organs concerned in wifehood and motherhood. Dr. Pierce's Favorite Prescription makes these organs strong and well. It allays inflammation, heals ulceration and soothes pain. It has transformed thousands of sickly, nervous, petulant, childless and unhappy women into happy, healthy, helpful, amiable wives and mothers. It banishes the discomforts of the period of prospective maternity and makes baby's advent easy and almost painless. Good medicine dealers sell it and an honest druggist does not try to urge upon you an inferior substitute for a little extra profit.

If you want a 1008-page home doctor-book, send 21 one-cent stamps, to cover mailing only, for a paper-covered copy of Dr. Pierce's Common Sense Medical Adviser. French cloth binding 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

GREAT GRUMBLERS.

Grumbling Will Cease if East Liverpool People Follow This Citizen's Advice.

When the kidneys are sick they grumble.

You hear them clear through the back. You feel them clear through the body. They grumble when overtaxed. Know how the kidneys grumble?

It's a simple thing; your back will tell you. Backache is the first grumbling warning.

The kidneys give it and if you heed it not, look out for trouble, it will surely come.

Urinary trouble, kidney trouble and many miseries. Doan's Kidney Pills are made for kidneys only.

They cure every form of kidney ill. The experience of East Liverpool people proves this.

Here's a case in point:

Mrs. Wm. James, who lives at 283 Third street, says: "I was troubled off and on for eight years with a weakness of the back and kidneys, a dull, aching pain across my loins, up under my shoulder blades, and rheumatic pain in my right shoulder. I was very susceptible to changes in the weather, and was so bad at times that I could scarcely stand and support my own weight. The trouble affected my nervous system, causing frequent fluttering of the heart and a shortness of breath. I generally resorted to porous plasters, but the relief was only temporary. I got Doan's Kidney Pills at the W. & W. Pharmacy, and obtained relief almost at once. The symptoms all left, and there was nothing wrong with my kidneys after the treatment. I felt much better and stronger generally."

Doan's Kidney Pills are for sale by all dealers. Prices 50 cents per box. By mail on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for United States. Remember the name, Doan's and take no other.

PROMISES JAPAN'S AID.

Professor Fukushima on the Friendly Feelings of the "Yankees of the East."

Professor T. Fukushima, who delivered an address recently at Terre Haute, Ind., on "Japanese Civilization" and is a member of the faculty of the college at Tokyo, says the people of this country may depend on the aid of the "Yankees of the east" if the European powers assist Spain.

"The Japanese," said the professor, "are willing and anxious to lend a hand to the Americans. They showed a few years ago what good fighters they are. They covered themselves with glory in their conflict with the hated Chinese, and when Brother Jonathan needs the aid of their 47 first class warships and their 35 torpedo boats it will be given in a twinkling."

Professor Fukushima is a graduate of Cornell.—New York Sun.

Fined \$750 For Having Short Lobsters.

In the municipal court of Boston Isaac C. Harvey, charged with having in his possession 116 lobsters each of which was shorter than the length required by law, which is 10½ inches, was recently fined \$750 for each lobster, aggregating \$780.—Boston Transcript.

HE CHANGED THE DATE

When Devine and His Companions Will Be Heard.

SMALL BOY WAS IN COURT

A Fine Was Paid For the Breaking of Law, and His Father Swore Out a Warrant For the Arrest of the Other Part of the Trouble—West End Men Involved.

No arrests were made during the night, but Mayor Bough was a busy man this morning just the same.

The hearing of David Devine, James Caton and George Flanders, to have been this afternoon at 2 o'clock, has been postponed until tomorrow afternoon. The hour has not been set, but it is thought it will be between 2 and 3 o'clock.

The father of Edgar Kelley, who was charged with throwing stones, was at city hall this morning and paid a fine of \$5.00 for his son. Immediately after this was done Kelley signed an affidavit charging John Duffy with the same offense as his son was charged. Duffy will be seen this evening and asked to come to the mayor's office and settle the matter.

The names of two men living in West End have been placed before the mayor. The men if arrested will be charged with indecent conduct.

A man who gave his home as being in Connelville was given a night's lodging. He was turned out early this morning.

Officer Grim last evening walked about the Horn switch and dispersed a crowd of boys who were throwing stones at some freight cars. The boys were standing in West Market street, and were given a warning not to repeat their action, under penalty of going to jail. Railroad detectives are also on the look-out for these offenders.

COUNCIL'S AUTHORITY

For Placing Constables on the Police Force.

There is no doubt that council had a perfect right to appoint the constables as policemen, as chapter 5, section 2023, Revised Statutes of Ohio, says:

"Council may appoint such number of constables to be policemen, residing in such city or village, as they may deem proper, and provide by ordinance for the payment of the same." It was also decided that it was not necessary to pass a new ordinance to pay them, as the present ordinance covers the ground.

On the River.

The heavy rain of the night and this morning will cause the river to rise several inches, but not enough water has fallen to make a coal boat stage. The river at this port is stationary, and the marks at the wharf show a stage of nine feet.

The Queen City went down last night with a good trip, and the Ben Hur and Urania are down tonight. Will J. Cummins and Bedford were up this afternoon.

Business at the wharf is not as brisk as it might be, but it is much better than last week.

Business at the Depot.

Freight shipments yesterday were better than those of Tuesday, and during the day about 16 cars were sent out.

Business was not very brisk this morning, but during the afternoon considerable ware was loaded.

Receipts were very good, and during the week so much freight has been received that the storage room is fast being filled.

HOME FOR MAINE BEREAVED

John S. Crossy Will Give Four Hundred Acres and Many Fine Buildings.

John Stewart Crossy of Baltimore has offered his large property on the Choptank river for the establishment of a school for the orphans and a home for the widows of those who perished on the battleship Maine in Havana harbor.

The property consists of nearly 400 acres of land, improved by large buildings, including Mr. Crossy's mansion. The property cost over \$70,000. There is a steamboat landing, a freight house and passenger depot, a large mansion, a store building, a carriage house, a sawmill, a fertilizer mill, a laboratory, a tenant house two and a half stories high, barns, stables, carriage houses, etc.

Mr. Crossy wants to secure the co-operation of 10 or 12 persons who are willing to donate \$100 each to buy furniture and make alterations and improvements to the buildings, they to form a company under the name of the American Humane Society of Maryland and to have charge of the establishment, which is to be supported by voluntary subscriptions.—New York World.

Life's Duty.

Great deeds are trumpeted, lead bells are rung, And men turn round to hear The high peaks echo to the peans sung, And some great victor cheer, and yet great deeds are few.

The mightiest men find opportunities but now and then.

The sweetest lives are those to duty wed. The world may sound no trumpets, ring no bells. The Book of Life the shining record tells.

God help us mothers all to live aright, And may our homes all truth and love unfold, Since life for us no loftier aims can hold Than leading little children in the light.

HE CHANGED THE DATE

When Devine and His Companions Will Be Heard.

SMALL BOY WAS IN COURT

A Fine Was Paid For the Breaking of Law, and His Father Swore Out a Warrant For the Arrest of the Other Part of the Trouble—West End Men Involved.

No arrests were made during the night, but Mayor Bough was a busy man this morning just the same.

The hearing of David Devine, James Caton and George Flanders, to have been this afternoon at 2 o'clock, has been postponed until tomorrow afternoon. The hour has not been set, but it is thought it will be between 2 and 3 o'clock.

The father of Edgar Kelley, who was charged with throwing stones, was at city hall this morning and paid a fine of \$60 for his son. Immediately after this was done Kelley signed an affidavit charging John Duffy with the same offense as his son was charged. Duffy will be seen this evening and asked to come to the mayor's office and settle the matter.

The names of two men living in West End have been placed before the mayor. The men if arrested will be charged with indecent conduct.

A man who gave his home as being in Connellsville was given a night's lodging. He was turned out early this morning.

Officer Grim last evening walked about the Horn switch and dispersed a crowd of boys who were throwing stones at some freight cars. The boys were standing in West Market street, and were given a warning not to repeat their action, under penalty of going to jail. Railroad detectives are also on the lookout for these offenders.

COUNCIL'S AUTHORITY

For Placing Constables on the Police Force.

There is no doubt that council had a perfect right to appoint the constables as policemen, as chapter 5, section 2023, Revised Statutes of Ohio, says:

"Council may appoint such number of constables to be policemen, residing in such city or village, as they may deem proper, and provide by ordinance for the payment of the same." It was also decided that it was not necessary to pass a new ordinance to pay them, as the present ordinance covers the ground.

On the River.

The heavy rain of the night and this morning will cause the river to rise several inches, but not enough water has fallen to make a coal boat stage. The river at this port is stationary, and the marks at the wharf show a stage of nine feet.

The Queen City went down last night with a good trip, and the Ben Hur and Urania are down tonight. Will J. Cummins and Bedford were up this afternoon.

Business at the wharf is not as brisk as it might be, but it is much better than last week.

Business at the Depot.

Freight shipments yesterday were better than those of Tuesday, and during the day about 16 cars were sent out.

Business was not very brisk this morning, but during the afternoon considerable ware was loaded.

Receipts were very good, and during the week so much freight has been received that the storage room is fast being filled.

Called on Friends.

Hon. William Monaghan, of Cleveland, was in the city today calling on old friends. Mr. Monaghan has been in Pittsburgh attending the meeting of the veteran employees of the Cleveland and Pittsburgh.

Last Day of School.

The special session of the Chester school will close the last of the month. The regular school term closed several months ago, and the school is now being conducted on the line of pay school.

Sent to Canada.

This morning a large shipment of electrical goods was sent to Canada. It has been some time since anything manufactured in this place has been shipped to a foreign country.

A Week With Friends.

Motorman H. M. Moore, of the street car line, left for Pittsburgh this morning, where he will spend a week with friends.

HOME FOR MAINE BEREAVED

John S. Crossy Will Give Four Hundred Acres and Many Fine Buildings.

John Stewart Crossy of Baltimore has offered his large property on the Choptank river for the establishment of a school for the orphans and a home for the widows of those who perished on the battleship Maine in Havana harbor.

The property consists of nearly 400 acres of land, improved by large buildings, including Mr. Crossy's mansion. The property cost over \$70,000. There is a steamboat landing, a freight house and passenger depot, a large mansion, a store building, a carriage house, a sawmill, a fertilizer mill, a laboratory, a tenant house two and a half stories high, barns, stables, carriage houses, etc.

Mr. Crossy wants to secure the co-operation of 10 or 12 persons who are willing to donate \$100 each to buy furniture and make alterations and improvements to the buildings, they to form a company under the name of the American Humane Society of Maryland and to have charge of the establishment, which is to be supported by voluntary subscriptions.—New York World.

Life's Duty.

Great deeds are trumpeted, lead bells are rung
And men turn round to hear
The high peaks echo to the peans sung,
And some great victor cheer, and yet great
deeds are few.

The mightiest men find opportunities but now
and then.

The sweetest lives are those to duty wed.
The world may sound no trumpets, ring no
bells.
The Book of Life the shining record tells.

God help us mothers all to live aright,
And may our homes all truth and love enfold,
Since life for us no loftier aims can hold
Than leading little children in the light.

THE NEWS REVIEW each evening con-
 tains all the important telegraphic news
 and all the news of the city and Wells-
 ville.

AFTER the stock of fakes and fables are
 subtracted from the "news service" of
 a local paper, it has very little to tell its
 readers.

THAT victory seems to have dampened
 the ardor of those Europeans who be-
 lieved it was time to interfere in behalf
 of Spain.

As a street vender of patent medicines
 Sagasta might be a success, but as a
 statesman directing the affairs of a
 government he is a lamentable failure.

PRESIDENT MCKINLEY's popularity
 has not suffered because of his position
 in the present important events. He de-
 layed action because the country was not
 prepared for war, but now that the test
 has come he is compelling a prompt-
 ness upon the part of the army and
 navy that is certainly cheering.

THOSE members of congress who
 howled for war because they believed
 the administration was opposed to
 armed intervention and who are now
 endeavoring to defeat the conquest of
 Spain by opposing any reasonable
 measure for the raising of revenue with
 which to prosecute the war, are paving
 for themselves a very rocky road if they
 hope to return to congress. They had a
 name for gentlemen of that stripe dur-
 ing the Rebellion.

THE CUBAN CAMPAIGN.

In a very short time the soldiers of
 this government will camp, and march
 and perhaps fight on Cuban soil, and
 Ohio will have a prominent place in the
 military movements. It is too early yet
 to tell whether the war will be of suffi-
 cient importance to bring out a Grant, a
 Sheridan or a Sherman, but it will
 doubtless last long enough to show the
 pluck of the men who are placed in try-
 ing positions. That Ohio will do its
 duty no one doubts, but we hope it will
 go beyond that mark, and doing more
 than its duty come home with a brilliant
 record, a record that will not suffer when
 placed side by side with the glorious
 deeds of other days. Somebody is going
 to be heard from in this campaign, and
 it is but right that the somebody should
 be from Ohio. The country expects it.

SPANISH DEVILTRY.

Too cowardly to face our soldiers in
 open battle and yet unable to resist the
 native thirst for blood, the Spanish gov-
 ernment has its emissaries working in
 secret throughout this country, hoping
 by the use of poison to accomplish that
 which they cannot attain with the
 sword. These secret agents of Spain
 are murderers. What they do is beyond
 the pale of civilized warfare. They
 steal at night to a spring or well from
 which some company of United States
 soldiers derive their water supply, and
 while no one is looking empty the deadly
 contents of vial or package, escaping
 into the darkness without detection.
 Should one of these murderers be de-
 tected, the commanding officer would
 be justified in taking summary venge-
 ance. He would have the unanimous
 endorsement of the country if he but
 called a drumhead court martial, and
 have the miscreant shot without debate
 or ceremony. Perhaps the rope would
 be better, leave that to the military
 man, but in some way rid the country
 of this scourge.

REJECTED ONCE MORE

Mayor Bough's Appointments
 Turned Down.

CONSTABLES ARE POLICEMEN

Council Appoints Lyon and Miller to Fill
 the Vacancies on the Police Force Until
 Some Arrangement Can Be Made That
 Will Fill the Vacancies.

Council met last evening in adjourned
 session and transacted much business,
 incidentally turning down Mayor
 Bough's appointments.

Vice President Stewart called the ses-
 sion to order at 8:09 o'clock with all
 members present except Messrs. Mar-
 shall and Ashbaugh, but President
 Marshall arrived later and occupied a
 seat on the floor of the council chamber
 at his own request.

The minutes were dispensed with, and
 the ordinance to provide for a
 special election for hospital purposes
 was heard on its second reading. It
 was accompanied by the constitution
 and by-laws of the association and an
 agreement to maintain the same, signed
 by several prominent business men of
 the city. The ordinance to extend the
 second sewer district, was also placed on
 its second reading.

A petition from the residents of
 Sunnyside said they would be shut off
 when the grading of Lisbon road was
 completed, and asked that the streets
 be graded. The matter was referred to
 the street committee.

A petition asking that College street
 be graded from Forest street to Potter's
 lane alley, was presented.

Mr. Peach reported the work of grad-
 ing Short street partially completed,
 and the committee was instructed to
 finish its work.

Mr. Cain said that the fire committee
 had received samples of hose, and after
 thoroughly examining them council de-
 cided to buy 500 feet from Boston Hose
 and Rubber company, at a rate of 70
 cents. The Eureka Hose company bid
 80 cents per foot, while they both
 gave a guarantee for 36 months.
 The one purchased is guaranteed to
 stand a pressure of 1,000 pounds, and
 Chief Morley said he would cap one end
 of it and attach it to the high service
 reservoir which has a pressure of 210
 pounds and test it. Mr. Challis was a
 warm advocate of the higher priced
 hose, as he thought it was by all odds
 the best.

Mr. Cain reported that the fire com-
 mittee recommended the pur-
 chase of a lot on Virginia avenue,
 East End. It will cost \$325,
 but East End will get a sufficient fire
 protection, as buildings can be erected
 in which to keep the hose and trucks
 and they will be of easy access. The
 committee was instructed to buy the lot.

A resolution to grade College street,
 from Forest street to Potter's lane alley,
 was passed, but it will not be advertised.

An ordinance passed to amend
 Sections 3 and 10 of Ordi-
 nance 492, Revised Ordinances of
 the city, provides for an additional
 fireman to be located in East End at a
 salary of \$2 per day. He shall be on
 duty 12 hours and shall also do police
 duty in that part of the city.

Mr. Challis called attention to a bad
 place in Avondale street, and the com-
 missioner will look after it, while the
 claim of Henry Porter for damages
 amounting to \$20 was placed on the pay
 roll.

Solicitor McGarry announced that he
 would take the proper steps to annex the
 territory included in the enlarging of the
 corporate limits, and the solicitor and
 engineer were appointed a committee to
 view several houses in Ravine street
 and see if something could not be done
 to keep the water out of their cellars.

Vice President Stewart here an-
 nounced that council was ready to hear
 the appointments of the mayor.

Mayor Bough handed the list to Clerk
 Hanley and said:

"I have here a list of appointments,
 and as far as policemen are concerned I
 have discovered no reason why I should
 submit a different list, as I am unable to
 discover better material, and therefore
 submit the names of John W. Wyman,
 Millard Cochran, John W. Grant and
 Jerry McMillan. I do not wish to argue
 the question, as I consider them thor-
 oughly qualified for the positions, and
 should be pleased to have the support of
 council and permission to place the re-
 sponsibility of the success of my admin-
 istration upon myself. As to wharfmaster
 I have submitted two names that of P.
 Kernan and Thomas Lloyd. Mr. Ker-
 nan is my preference, as he made one of
 the best wharfmasters we ever had, and
 I am inclined to believe Mr. Lloyd is not
 as satisfactory as he might be, whether

from indifference or infirmities I do not
 know. For sealer of weights and
 measures I have presented J. C. Allison
 and R. D. Vanfossan, either of which
 will be satisfactory to me."

Council proceeded to ballot, and Mr.
 Wyman received the vote of Mr. Cain
 while Mr. Stewart voted for Cochran.
 The other police appointments were
 turned down unanimously. Mr. Lloyd
 and Mr. Allison were confirmed unani-
 mously.

Mr. Marshall said: "It seems strange
 that council and mayor cannot get to-
 gether and agree to settle on a set of
 officers for the town. The city has
 been practically for one month with but
 two officers and from present indications
 it will go on indefinitely. The mayor
 does not wish a conference whereby a
 police force can be appointed, and I
 move that Constable Lyon and Constable
 Miller be appointed until such time as
 officers are confirmed by council, as it is
 absolutely necessary we have some
 officers and it seems to be the only avenue
 out of the difficulty."

The motion was seconded by Mr.
 Olmhausen, and Mr. Cain said:

"It looks strange to me that the thing
 should happen when we are in need of
 police. If the present names cannot be
 confirmed let the mayor name others. I
 am sorry to see this happen. Surely
 we can find enough men in the city to
 serve as faithful policemen" and Mr.
 Stewart replied that "all the men had
 gone to war."

Mr. Peach said: "I would like to
 know if the mayor has any other names
 to suggest who would make good offi-
 cers. It seems to me it is straining a
 point as we need more officers. I
 would like to see Mayor Bough have
 good officers. We want Republicans
 and no other, and if he will persist in
 turning us down outright, we are
 taking our position just as honorably as
 he is his. We made no suggestions to
 him, but simply asked that four good
 men from the Republican party be
 elected. We are not drawing the line
 on four people, but want them selected
 from 2,300."

Mr. Bough replied that the Republi-
 cans he had named were not confirmed.
 To which Mr. Peach said: "It requires
 more than a man who voted for a re-
 form government or the head of the
 Prohibition ticket to make a Republi-
 can. We want known Republicans."

"Do I understand that no man who
 voted for me is to be considered," asked
 Mayor Bough.

"It is not that," replied Mr. Peach,
 "but I am satisfied that the parties you
 have named voted for you."

"I am to understand then if a man
 voted for me he is not satisfactory to
 you" retorted Mayor Bough.

"I did not say that," replied Mr.
 Peach. "After you were elected we
 desired to assist you in every way, and
 for that reason a caucus was held. When
 we asked you for your list you said you
 was caucusing with your friends on
 them and was not ready. Council was
 not taken into consideration by you."

"That is far fetched," said Mayor
 Bough. "I told you I did not have
 them ready."
 "I may be mistaken," said Mr. Peach,
 "but don't think I am. In my opinion
 a known Republican is one who sup-
 ported Governor Bushnell and Mayor
 Gilbert."

"I have submitted my list and will
 stand there," said Mayor Bough. "The
 responsibility rests with you."

President Marshall said:
 "That is what I took from your ac-
 tions from the first. The idea was to
 have a conference to agree on officers,
 and the mayor did say he had come
 from a conference with his friends and
 had three names but had not selected
 the fourth. Council supposed they were
 worthy of some consideration as the
 mayor had only the names while coun-
 cil had the confirming of them. Here-
 tofore it has always been the cus-
 tom to caucus and arrange
 the force. Even the President
 of the United States when he makes an
 appointment that is turned down by the
 senate has enough courtesy to his friends
 to keep on making appointments until
 one is confirmed."

"The mayor requested a caucus on
 Monday night and we were informed
 that he was still one man short. He had
 been ready at noon but one man had re-
 fused to serve. We did not meet for a
 caucus but simply to be dictated to. It
 has been the case with him of 'here is
 my list, take it or take nothing.' There
 has never been the semblance of a
 conference on the part of Mayor Bough
 to arrive at a satisfactory conclusion to
 settle the matter as council has not been
 considered. We have been ready to
 meet him half way, but we refuse abso-
 lutely to be dictated too, and claim we
 have equal rights with him. What the
 law gives us we are going to have and
 as J. C. McClain says 'we don't propose
 to give up our constitutional rights.' We
 can appoint constables and pay them
 too."

The motion was carried unanimously,
 and Mr. Olmhausen caused a laugh by
 saying:
 "I move we give the mayor his pas-
 ports. If we are going to have a fight
 let us do it right."

Mr. Challis called attention to a bad place in Avondale street, and the commissioner will look after it, while the claim of Henry Porter for damages amounting to \$20 was placed on the pay roll.

Solicitor McGarry announced that he would take the proper steps to annex the territory included in the enlarging of the corporate limits, and the solicitor and engineer were appointed a committee to view several houses in Ravine street and see if something could not be done to keep the water out of their cellars.

Vice President Stewart here announced that council was ready to hear the appointments of the mayor.

Mayor Bough handed the list to Clerk Hanley and said:

"I have here a list of appointments, and as far as policemen are concerned I have discovered no reason why I should submit a different list, as I am unable to discover better material, and therefore submit the names of John W. Wyman, Millard Cochran, John W. Grant and Jerry McMillan. I do not wish to argue the question, as I consider them thoroughly qualified for the positions, and should be pleased to have the support of council and permission to place the responsibility of the success of my administration upon myself. As to wharfmaster I have submitted two names that of P. Kernan and Thomas Lloyd. Mr. Kernan is my preference, as he made one of the best wharfmasters we ever had, and I am inclined to believe Mr. Lloyd is not as satisfactory as he might be, whether

from indifference or infirmities I do not know. For sealer of weights and measures I have presented J. C. Allison and R. D. Vanfossan, either of which will be satisfactory to me."

Council proceeded to ballot, and Mr. Wyman received the vote of Mr. Cain while Mr. Stewart voted for Cochran. The other police appointments were turned down unanimously. Mr. Lloyd and Mr. Allison were confirmed unanimously.

Mr. Marshall said: "It seems strange that council and mayor cannot get together and agree to settle on a set of officers for the town. The city has been practically for one month with but two officers and from present indications it will go on indefinitely. The mayor does not wish a conference whereby a police force can be appointed, and I move that Constable Lyon and Constable Miller be appointed until such time as officers are confirmed by council, as it is absolutely necessary we have some officers and it seems to be the only avenue out of the difficulty."

The motion was seconded by Mr. Olmhausen, and Mr. Cain said:

"It looks strange to me that the thing should happen when we are in need of police. If the present names cannot be confirmed let the mayor name others. I am sorry to see this happen. Surely we can find enough men in the city to serve as faithful policemen" and Mr. Stewart replied that "all the men had gone to war."

Mr. Peach said: "I would like to know if the mayor has any other names to suggest who would make good officers. It seems to me it is straining a point as we need more officers. I would like to see Mayor Bough have good officers. We want Republicans and no other, and if he will persist in turning us down outright, we are taking our position just as honorably as he is his. We made no suggestions to him, but simply asked that four good men from the Republican party be elected. We are not drawing the line on four people, but want them selected from 2,300."

Mr. Bough replied that the Republicans he had named were not confirmed. To which Mr. Peach said: "It requires more than a man who voted for a reform government or the head of the Prohibition ticket to make a Republican. We want known Republicans."

"Do I understand that no man who voted for me is to be considered," asked Mayor Bough.

"It is not that" replied Mr. Peach, "but I am satisfied that the parties you have named voted for you."

"I am to understand then if a man voted for me he is not satisfactory to you" retorted Mayor Bough.

"I did not say that" replied Mr. Peach. "After you were elected we desired to assist you in every way, and for that reason a caucus was held. When we asked you for your list you said you was caucusing with your friends on them and was not ready. Council was not taken into consideration by you."

"That is far fetched," said Mayor Bough. "I told you I did not have them ready."

"I may be mistaken," said Mr. Peach, "but don't think I am. In my opinion a known Republican is one who supported Governor Bushnell and Mayor Gilbert."

"I have submitted my list and will stand there," said Mayor Bough. "The responsibility rests with you."

President Marshall said:

"That is what I took from your actions from the first. The idea was to have a conference to agree on officers, and the mayor did say he had come from a conference with his friends and had three names but had not selected the fourth. Council supposed they were worthy of some consideration as the mayor had only the names while council had the confirming of them. Hereafter it has always been the custom to caucus and arrange the force. Even the President of the United States when he makes an appointment that is turned down by the senate has enough courtesy to his friends to keep on making appointments until one is confirmed."

"The mayor requested a caucus on Monday night and we were informed that he was still one man short. He had been ready at noon but one man had refused to serve. We did not meet for a caucus but simply to be dictated to. It has been the case with him of 'there is my list, take it or take nothing.' There has never been the semblance of a conference on the part of Mayor Bough to arrive at a satisfactory conclusion to settle the matter as council has not been considered. We have been ready to meet him half way, but we refuse absolutely to be dictated to, and claim we have equal rights with him. What the law gives us we are going to have and as J. C. McClain says 'we don't propose to give up our constitutional rights.' We can appoint constables and pay them too."

The motion was carried unanimously, and Mr. Olmhausen caused a laugh by saying: "I move we give the mayor his passports. If we are going to have a fight let us do it right."

STILL WET IN CAMP

Some Changes Made In Company E.

CANTON YOUNG MAN ENLISTED

Captain Hill's Eyes Are Better and He Will Soon Throw Away His Goggles. Sergeant Kinsey Sent Home on Furlough—They Like Major Weybrecht.

CAMP BUSHNELL, May 11.—[Special]—Rain seems to be something of a specialty about this place, and the clouds pour down their contents at the slightest excuse. It came down in torrents Tuesday night, and when the boys crawled out this morning the camp was flooded. It was also damp, cold and chilly, but soon old Sol came out, and before noon the camp was comparatively dry. This afternoon the weather is threatening again and a slow rain is falling, but it is not enough to keep the men in their tents. They are becoming old campaigners, and can stand much more than they hoped a few weeks ago ever to attempt. The sky just now is black, and we all expect a soaking shower very soon. Even storms, however, are now looked upon as a matter of course, and no one thinks of complaining.

Company E was marched to brigade headquarters this morning, and beginning with the commissioned officers each man passed through two tents under the stern gaze of the United States surgeon and his corps of assistants, composed of regimental surgeons. The certificates of the physical examination made by Surgeon Hobbs were all accepted, and only those whose defects were noted at the preliminary examination in Liverpool, and the recruits who have been added since we came to camp were examined. The result was as I wired you yesterday afternoon. Cecil Fair was the only member of Company E turned down. He had been examined at home, and a defect found, but it was believed he would pass the army surgeon, but there were so many men physically perfect offering themselves that he was rejected.

The splendid showing made by the Liverpool boys can more readily be seen when it is known that Company K, of Alliance, lost eight, and the officers and men are highly indignant. The unfortunates, with tears streaming down their cheeks, were marched to regimental headquarters where a protest was entered. It is claimed by the men that the examination of other companies was not so strictly conducted.

Carl Teeters, another Elk, attached his name to the roll of Company E today. He is from Canton, and brings the list to six.

Bugler Dewar is now a member of the Eighth regiment band, and has been assigned to duty on the first B flat. John McTammany, of Akron, also a member of the band, has been added to the roll of Company E. John Holloway, of Wellsville, has been appointed artificer, John Gilson wagoner, and Corporal Blake wear the chevrons of a sergeant. [Sergeant Trump, in his modesty, neglects to say that he having been raised to quartermaster sergeant, made the other promotion possible.—Ed.]

There are changes all around these days. When the regiment is mustered into the United States service the office of regimental color sergeant dies, and Sergeant Rosenberg, at present acting in that capacity, will go to his home in Alliance. The colonel appoints the sergeant to carry the colors, and he is usually selected from the color company, whichever that may be. With the exception of dropping the color sergeant, commissary sergeant and junior surgeons the regiment will go the front intact.

The muster rolls of Company E have been prepared by Sergeant Hanley and are ready for signature. The sergeant left his leafy bower at 3 in the morning to get them ready. It was no easy task to collect all the necessary date and put it in presentable form.

Captain Hill's eyes are much improved, and he will soon be able to discard his goggles.

Bobby Donaldson, late porter at the Hotel Grand, whose evidence during the Robison case caused so much comment, came to camp today to enlist, but the ranks were full. He may get into Company K, where they need men.

Sergeant Kinsey was granted a furlough for a few days and provided with transportation home, because of the serious illness of his child.

All the boys, not only of our company but of the entire Second battalion, are loud in their praises of Major Weybrecht. He is one of those genial gentlemen who knows the duties of a soldier,

so well that he never expects that which is not right. He admires a good soldier or officer and never permits a good piece of work to go by unnoticed. He has the good will of every man in the battalion, and looks after the companies under his command in a manner highly commendable. There are a great many popular officers in the Eighth, but Major Weybrecht can hold his own with any.

MAYOR BOUGH'S VIEW.

He Talks About the Rejection of His Appointments.

Mayor Bough was seen by a reporter this morning, and when asked what he thought of the action of council last night said:

"If the council prefer anarchy to decency and law and order that is their privilege. They alone are responsible for their actions and no one else. I do not propose to betray the lovers of law and order in any manner or form. I was not elected for that purpose. A city of this size should have enough officers to protect the town in any emergency. I do not care to talk too much, on the subject, as it will do more harm than good. There is a deep question involved in this matter concerning the legal phases, that I do not want to talk about at this time, but I will say the question should be settled in order that all Ohio towns could have the benefit. Last night I could have talked an hour or more why my appointments should be confirmed, but I did not think it worth my while to do so. I will not say whether the action of council was legal in appointing Contables Miller and Lyon police. That is their lookout."

Mr. Bough was asked if Officers Grim and Whan were told that their names would be given to council for confirmation as an appointment. To this he replied:

"Every day there is someone in this office asking for a place on the police force. They must think I have no mind of my own. I treat them as gentlemen and tell them as I told others, that I would give their names consideration. I have heard reports that two of these men have said that I would appoint them officers, but this is not so."

It was plain to be seen this morning that the mayor was in no pleasant frame of mind.

AN ENSIGN KILLED

In a Battle off the North Coast of Cuba.

WINSLOW RIDDLED WITH SHOT

She Was Towed to a Place of Safety but Is In a Bad Way—A Washington Suspect Hanged Himself—Anarchy Reigns In and Around Manila and Dewey Is Unable to Do Anything in the Way of Restoring Order.

KEY WEST, May 12.—[Special]—News of an engagement at Cardenas reached here this morning, in which five men were killed and a number wounded.

The torpedo boat Winslow and the gunboats Wilmington and Hudson, part of the blockading squadron, were cruising off the bay when they were fired upon from the shore batteries. Having run in close to shore the Winslow received the bulk of the charge. The boats hastily retreated out of range.

Ensign Bagley, of the Winslow, was killed as were John Varvoris, Josiah Turnett, J. V. Meeks and J. Daniels, members of the crew. The wounded are Lieutenant Bernadow, Cox, McKeon, Patterson and Gray. Patterson is badly hurt and will probably die.

Three Spanish gunboats appeared off the bay and the American boats were caught between their fire and that of the formidable shore batteries. The Winslow was literally riddled with shot, and there the men were killed.

The wounded men were taken to Key West on the gunboat Hudson. With the exception of Patterson they were only slightly hurt.

Ensign Worth Bagley was sent as a cadet to the naval academy at Annapolis September 7, 1891, from North Carolina, and has been an officer on the Winslow since July 10, of last year.

SAMPSON AT WORK.

At Least That Is What Word From Key West Says.

KEY WEST, May 12.—[Special]—It is reported here that Admiral Sampson this morning began the bombardment of San Juan, and the whole fleet is engaged. It is reported that a great amount of damage has already been done.

The report has not yet been confirmed.

SENT TO THE BOTTOM.

The Concord Squared Accounts With a Spaniard.

HONG KONG, May 12.—[Special]—A vessel arriving today from the Philippines reports that it witnessed a fight in which the American gunboat Concord attacked and sent to the bottom a Spanish warship. The engagement took place off the city of Lloilo.

Not an American was killed. The name of the Spaniard is not given.

HANGED HIMSELF.

A Spanish Spy Ended His Life in Washington.

WASHINGTON, May 12.—[Special]—George Downing, the man who was arrested as a Spanish spy, put an end to his existence this morning by hanging. The testimony against the man was strong, and his suicide is taken as proof of his guilt.

ANARCHY AT MANILA.

Admiral Dewey Cannot Control the People.

HONG KONG, May 12.—[Special]—A British warship just arrived from Manila reports that the whole country is in a state of anarchy. Bands of armed men are pillaging, burning and murdering, and a great many people have already been killed. Admiral Dewey, because of the small force at his command, is unable to restore any semblance of order.

WINSLOW RIDDLED WITH SHOT

She Was Towed to a Place of Safety but Is In a Bad Way—A Washington Suspect Hanged Himself—Anarchy Reigns In and Around Manila and Dewey Is Unable to Do Anything in the Way of Restoring Order.

KEY WEST, May 12.—[Special]—News of an engagement at Cardenas reached here this morning, in which five men were killed and a number wounded.

The torpedo boat Winslow and the gunboats Wilmington and Hudson, part of the blockading squadron, were cruising off the bay when they were fired upon from the shore batteries. Having run in close to shore the Winslow received the bulk of the charge. The boats hastily retreated out of range.

Ensign Bagley, of the Winslow, was killed as were John Varvoris, Josiah Turnett, J. V. Meeks and J. Daniels, members of the crew. The wounded are Lieutenant Bernadow, Cox, McKeon, Patterson and Gray. Patterson is badly hurt and will probably die.

Three Spanish gunboats appeared off the bay and the American boats were caught between their fire and that of the formidable shore batteries. The Winslow was literally riddled with shot, and there the men were killed.

The wounded men were taken to Key West on the gunboat Hudson. With the exception of Patterson they were only slightly hurt.

Ensign Worth Bagley was sent as a cadet to the naval academy at Annapolis September 7, 1891, from North Carolina, and has been an officer on the Winslow since July 10, of last year.

SAMPSON AT WORK.

At Least That Is What Word From Key West Says.

KEY WEST, May 12.—[Special]—It is reported here that Admiral Sampson this morning began the bombardment of San Juan, and the whole fleet is engaged. It is reported that a great amount of damage has already been done.

The report has not yet been confirmed.

SENT TO THE BOTTOM.

The Concord Squared Accounts With a Spaniard.

HONG KONG, May 12.—[Special]—A vessel arriving today from the Philippines reports that it witnessed a fight in which the American gunboat Concord attacked and sent to the bottom a Spanish warship. The engagement took place off the city of Lolo.

Not an American was killed. The name of the Spaniard is not given.

HANGED HIMSELF.

A Spanish Spy Ended His Life In Washington.

WASHINGTON, May 12.—[Special]—George Downing, the man who was arrested as a Spanish spy, put an end to his existence this morning by hanging. The testimony against the man was strong, and his suicide is taken as proof of his guilt.

ANARCHY AT MANILA.

Admiral Dewey Cannot Control the People.

HONG KONG, May 12.—[Special]—A British warship just arrived from Manila reports that the whole country is in a state of anarchy. Bands of armed men are pillaging, burning and murdering, and a great many people have already been killed. Admiral Dewey, because of the small force at his command, is unable to restore any semblance of order.

Summer Cars.

The summer cars were making regular trips this afternoon in place of the winter cars. They were well patronized.

The Connelly Gas Regulator

is metallic throughout, no sliding or rubbing contact of metals, or parts, at any point. This eliminates all friction, insures accurate and reliable regulation of pressure and prevents wear. It will hold your gas fires to the exact point you set them at all hours during day or night. Your incandescent burners will give a much better light and the mantles will last twice as long with accurately regulated pressure. All waste of gas due to excessive or variation of pressure is prevented by this regulator, whether used for light or heat, and on all kinds of burners or heating appliances. We can submit hundreds of testimonials in support of every point claimed for this regulator. Catalogue on application.

THE GENERAL ASSEMBLY

Of the Presbyterian Church Meets Next Week.

WHO WILL BE THE MODERATOR?

There Are a Great Many Candidates--The Report of the Committee on Temperance Expected to Cause a Storm--Doctor Lee is Prominently Identified.

The commissioners of the Presbyterian general assembly, which will meet on Thursday of next week at Winona lake, Warsaw, Ind., have all been elected. They number 610, one-half ministers and one-half laymen, and represent the church in all parts of the United States, South America, Mexico, China, India, Siam, Korea and Africa. The commissioners come from 230 presbyteries and 32 synods, and on the roll are many of the most distinguished men of the church, carefully selected in view of the grave questions to come before the assembly. The report this year shows 7,700 churches on the roll and 7,200 ministers, and an addition of almost 100,000 to the membership of the church.

One of the most serious and practical problems is how to increase the income of the church. There has been a great falling off the past year, and the debt is now enormous, that of the board of home missions alone over \$300,000. A special committee was appointed last year to labor with this problem. It is thought that the appointment plan will again be suggested.

It is anticipated that the cyclone of the assembly will be on the subject of temperance, and the committee on this subject is composed entirely of Pittsburgh men, with Rev. Dr. John J. Beacom as chairman. The substance of the report has already created much disturbance.

But the redhot discussion will be raised by the memorial paper of Rev. Dr. Dunlop Moore, of Pittsburgh, on Prof. McGiffert's book, which has been pronounced heretical by the presbytery of Pittsburgh. He is backed up by overtures from several presbyteries, making the prospect almost sure for a heresy trial.

The question of moderator is uppermost now, and is complicated as the material is very abundant. This is the highest office in the gift of the church and this year there is an unusual number of aspirants. Among those prominently named are Rev. Dr. Henry Clay McCook, of Philadelphia; Rev. Dr. William H. Roberts, of Philadelphia; Rev. Dr. Wallace Radcliffe, of Washington City; Rev. Dr. John R. Davies, of New York; Rev. Dr. William McKibbin, of Cincinnati; Rev. Dr. William N. Page, of Leavenworth; Rev. Dr. John Dixon, of Trenton, and Rev. Dr. McKenzie, of San Francisco, and Rev. Dr. W. S. P. Bryan, of Chicago. One of the first in the field was Rev. Dr. Radcliffe, a native of Pittsburgh, a graduate of Washington and Jefferson college, and now pastor of the New York Avenue church, of Washington City, with 1,300 members. His prospect is bright. Another candidate who is well to the front is Rev. Dr. Henry Clay McCook, of Philadelphia. Belonging to the "Fighting McCooks," and himself an old soldier, he will have the advantage of the war fever. He is very popular, a graduate of Washington and Jefferson college. He is the author of "Tenants of an Old Farm," and has increased his reputation lately by writing "The Latimer--A Story of the Whisky Insurrection." He is an acknowledged authority on heraldry and will have charge of the exhibit of seals at the assembly.

Rev. Dr. William H. Roberts is widely known as the stated clerk of the assembly, who is often of a necessity practically moderator. If all the eastern men named run the best chance seems to be for Rev. Dr. William N. Page, of Kansas, one of the first named, and now in the 25th year of his pastorate in his present charge in Leavenworth. The present moderator, Rev. Sheldon Jackson, D. D., is from Washington City. The previous moderator was from Chicago, which puts a blight on Doctor Bryan's chances. The year before that Philadelphia had the moderator, but Doctor McCook's prospects will not be dimmed by the fact that the assembly wishes to meet in Philadelphia in 1899, in the new Witherspoon building, to which it expects an invitation.

Dr. John Lloyd Lee, of the First Presbyterian church, is deeply interested in the work of the general assembly, and as chairman of the committee of assignment already has his hands full looking after the business.

Ths News Review for news.

Starting a Big Machine. Did you ever see a careful engineer start a big pumping engine? He goes about it in a very deliberate manner indeed. Chief Engineer Michael Hodge, who has charge of the three gigantic pumping engines at the Alleghany waterworks at Monroe station, gave an illustrated lecture on the subject the other day to a visitor who happened into the plant. Turning a little wheel he said: "It takes about 15 minutes to start one of these pumps. I am turning on a little steam to sort of warm up her jacket before she gets down to hard work. A machine is like a man in a long distance race--she has to get limbered up before she is capable of her very best work. The work this engine does when she gets down to business is to take 500 gallons of water out of the river every revolution of her driving wheel and start it on its way to Alleghany. She runs at the rate of 15 revolutions per minute, and you can easily see that she has no snap, but earns every cent of her wages."

Diving down into the 'basement Mr. Hodge turned a valve wheel a part of the way round, and then went up stairs and turned on a little steam at the main valve. Then the ponderous driving wheel, which weighs a trifle over 28 tons, began to revolve slowly. Down into the basement he went again to open the intake valve a trifle more and then up to the main steam valve to give her a little more steam. With running about, turning a little wheel here and there, several assistants also helping with the work, it was fully 15 minutes from the time the first steam had been turned on until the big machine was running at regulation speed and doing a regulation amount of work.--Pittsburg Dispatch.

Boston's Great Man. "Boston may be the center of culture of the United States, but I found no evidence of that fact in my first trip to the Hub," remarked the young commercial traveler. "The culture may be there all right enough, but the Bostonians with whom I came in contact seemed less proud of it than of a certain other feature of the town. When I landed in Boston, I approached a policeman and asked him to direct me to a good hotel. He mentioned a good house to me and added, 'On your way up to the hotel you'll see the house where John L. lives.' 'John L. who?' I asked, very stupidly. 'Sullivan, of course,' said he, with a look of supreme pity for my ignorance.

"A little farther on I met a fellow whom I knew slightly. 'Come, have a cigar,' said I. He said he hadn't time, but he told me where I could get a good cigar. 'It's a little store in the middle of the next block. By the way, see that house on the other side of the street? That's where John L. lives.' I passed on to the cigar store. 'They tell me I can get a good cigar here,' I remarked. 'That's right,' said the man. 'Stranger in the city?' 'Yes.' 'Well, that house over there--that's where Sullivan lives.' "Conductors, bellboys, business men, elevator boys, clerks, barbers, bartenders--everybody called my attention to that house during my stay. He was the only great man to whom the natives saw fit to call my attention."--Philadelphia Record.

Shark Charmers. In the Persian gulf the divers have a curious way of opening the season. They depend implicitly upon the shark conjurers and will not descend without their presence. To meet this difficulty the government is obliged to hire the charmers to divert the attention of the sharks from the fleet. As the season approaches vast numbers of natives gather along the shore and erect huts and tents and bazaars. At the opportune moment--usually at midnight, so as to reach the oyster banks at sunrise--the fleet, to the number of 80 or 100 boats, puts out to sea. Each of these boats carries two divers, a steersman and a shark charmer and is manned by eight or ten rowers. Other conjurers remain on shore, twisting their bodies and mumbling incantations to divert the sharks. In case a man eater is perverse enough to disregard the charm and attack a diver an alarm is given, and no other diver will descend on that day. The power of the conjurer is believed to be hereditary, and the efficacy of his incantations to be wholly independent of his religious faith.--Frank H. Sweet on "Pearl Seeking," in Lippincott's.

Abyssinian Legal Pomp. The lord chief justice of Abyssinia was a cheery old gentleman, dressed in a huge black hat, green silk handkerchief tied round his head underneath the hat, black silk cloak embroidered with gold, smart purple silk shirt underneath and continuations of the fairest linen. This representative of the law was also armed with a long sword in a red scabbard, and his squires running alongside carried his rifle and gold mounted shield. Altogether he was a most imposing figure.--St. James Gazette.

Summer Havens. Illustrated information about America's popular summer resorts is being distributed by passenger and ticket agents of the Pennsylvania lines. Beautiful Winona.

Winona lake, Indiana, (formerly Eagle lake) is an attractive summer haven on the Pennsylvania lines near Warsaw, Indiana. As the site of Winona Assembly and Summer school, this resort has grown into popular favor very rapidly. Improvements made on the two hundred acres of romantic woodland which stretches nearly two miles along the eastern shore of Winona lake, a beautiful sheet of water, include all the comforts and conveniences for a highly enjoyable sojourn. Ample facilities are at hand for satisfactory entertainment at reasonable rates at the commodious hotel which adjoins the railway station at the entrance to the grounds, in cosy cottages, or in tents as may be preferred.

Persons who may desire to combine devotion, entertainment and instruction with rest and recreation will find Winona lake the ideal spot for invigorating both mind and body by instructive entertainment and study and health-giving recreation. The educational work of the Summer school is in charge of well known instructors. The college halls are equipped with all required paraphernalia; the large auditorium in which the Assembly meets, and in which prominent lecturers are heard during the season, has a seating capacity of over 3,000. An amphitheatre, race track and other facilities for athletic pastimes are provided. The fishing, bathing and boating are fine, the large fleet of boats being of the best.

The season of 1898 will open May 15. Commencing on that date excursion tickets with 15 day limit will be on sale via Pennsylvania lines. They may be obtained during May, June, July and August. The sale of season excursion tickets will begin June 1, and continue daily until Sept. 30. Season excursion tickets will be good returning until Oct. 31.

Full information about the attractions at "Beautiful Winona," its Assembly and Summer school, etc., will be cheerfully furnished all who address Mr. Sol. C. Dickey, secretary, Winona Lake, Ind. Inquiries about excursion rates, time of trains, etc., should be addressed to passenger and ticket agents of the Pennsylvania lines or to F. Van Dusen, chief assistant general passenger agent, Pittsburgh, Pa.

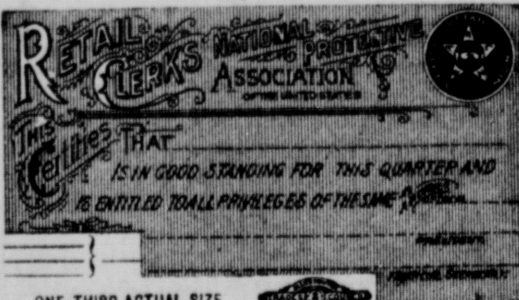

UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent working hours, and union labor employed.

PATRONIZE UNION CLERKS.

All members of the R. C. N. P. A. can show this card. Ask for it when making your purchases. Endorsed by the A. F. of L.

ONE-THIRD ACTUAL SIZE. COLOR IS CHANGED EACH QUARTER. Good only during months named in lower left hand corner and when properly signed, and STAMPED with the number of the Local.

UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark when found on the sole or lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

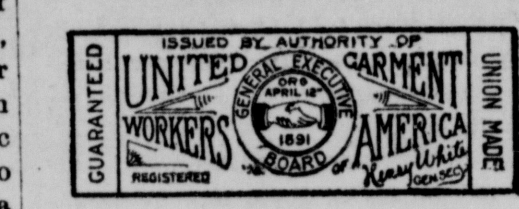

The Journeymen Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS.

This Label is about an inch and a half square, and is printed on buff-colored paper. It is placed on every union made hat before it leaves the workman's hands. If a dealer takes a label from one hat and places it in another, or has any detached labels in his store, do not buy from him, as his labels may be counterfeit, and his hats may be the product of scab or non-union labor.

UNION MADE CLOTHES.

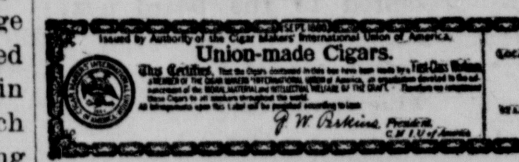

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

BICYCLE LABEL.

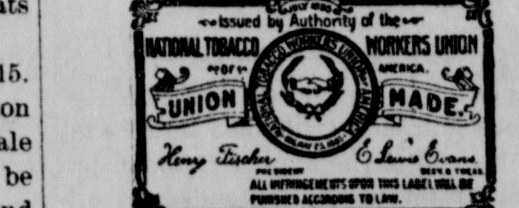

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold. The Label will be placed on the upper front side of the tube that receives the seat post.

BLUE LABEL CIGARS.

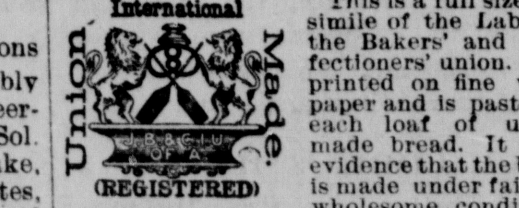

This label is printed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U. S. revenue label on the box, as the latter is nearly of a similar color.

TOBACCO LABEL.

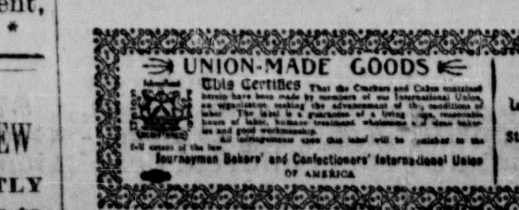

The above Label, printed on blue paper, will be found on all plug tobacco and on the wrappers of chewing tobacco manufactured in union tobacco factories.

UNION BREAD AND CRACKERS.

This is a full size facsimile of the Label of the Bakers' and Confectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions, and in clean and healthy bakeries. Following is the confectioners' and cracker Label:

REPORTED CARRIERS ON TRAINS 250, 300, 357 AND 360 DEPARTING CLEVELAND

THE GENERAL ASSEMBLY

Of the Presbyterian Church Meets Next Week.

WHO WILL BE THE MODERATOR?

There Are a Great Many Candidates--The Report of the Committee on Temperance Expected to Cause a Storm--Doctor Lee Is Prominently Identified.

The commissioners of the Presbyterian general assembly, which will meet on Thursday of next week at Winona lake, Warsaw, Ind., have all been elected. They number 610, one-half ministers and one-half laymen, and represent the church in all parts of the United States, South America, Mexico, China, India, Siam, Korea and Africa. The commissioners come from 230 presbyteries and 32 synods, and on the roll are many of the most distinguished men of the church, carefully selected in view of the grave questions to come before the assembly. The report this year shows 7,700 churches on the roll and 7,200 ministers, and an addition of almost 100,000 to the membership of the church.

One of the most serious and practical problems is how to increase the income of the church. There has been a great falling off the past year, and the debt is now enormous, that of the board of home missions alone over \$300,000. A special committee was appointed last year to labor with this problem. It is thought that the appointment plan will again be suggested.

It is anticipated that the cyclone of the assembly will be on the subject of temperance, and the committee on this subject is composed entirely of Pittsburg men, with Rev. Dr. John J. Beacom as chairman. The substance of the report has already created much disturbance.

But the redhot discussion will be raised by the memorial paper of Rev. Dr. Dunlop Moore, of Pittsburg, on Prof. McGiffert's book, which has been pronounced heretical by the presbytery of Pittsburg. He is backed up by overtures from several presbyteries, making the prospect almost sure for a heresy trial.

The question of moderator is uppermost now, and is complicated as the material is very abundant. This is the highest office in the gift of the church and this year there is an unusual number of aspirants. Among those prominently named are Rev. Dr. Henry Clay McCook, of Philadelphia; Rev. Dr. William H. Roberts, of Philadelphia; Rev. Dr. Wallace Radcliffe, of Washington City; Rev. Dr. John R. Davies, of New York; Rev. Dr. William McKibbin, of Cincinnati; Rev. Dr. William N. Page, of Leavenworth; Rev. Dr. John Dixon, of Trenton, and Rev. Dr. McKenzie, of San Francisco, and Rev. Dr. W. S. P. Bryan, of Chicago. One of the first in the field was Rev. Dr. Radcliffe, a native of Pittsburg, a graduate of Washington and Jefferson college, and now pastor of the New York Avenue church, of Washington City, with 1,300 members. His prospect is bright. Another candidate who is well to the front is Rev. Dr. Henry Clay McCook, of Philadelphia. Belonging to the "Fighting McCooks," and himself an old soldier, he will have the advantage of the war fever. He is very popular, a graduate of Washington and Jefferson college. He is the author of "Tenants of an Old Farm," and has increased his reputation lately by writing "The Latimer--A Story of the Whisky Insurrection." He is an acknowledged authority on heraldry and will have charge of the exhibit of seals at the assembly.

Rev. Dr. William H. Roberts is widely known as the stated clerk of the assembly, who is often of a necessity practically moderator. If all the eastern men named run the best chance seems to be for Rev. Dr. William N. Page, of Kansas, one of the first named, and now in the 25th year of his pastorate in his present charge in Leavenworth.

The present moderator, Rev. Sheldon Jackson, D. D., is from Washington City.

The previous moderator was from Chicago, which puts a blight on Doctor Bryan's chances. The year before that Philadelphia had the moderator, but Doctor McCook's prospects will not be dimmed by the fact that the assembly wishes to meet in Philadelphia in 1899, in the new Witherspoon building, to which it expects an invitation.

Dr. John Lloyd Lee, of the First Presbyterian church, is deeply interested in the work of the general assembly, and as chairman of the committee of assignment already has his hands full looking after the business.

Starting a Big Machine.

Did you ever see a careful engineer start a big pumping engine? He goes about it in a very deliberate manner indeed. Chief Engineer Michael Hodge, who has charge of the three gigantic pumping engines at the Allegheny waterworks at Monroe station, gave an illustrated lecture on the subject the other day to a visitor who happened into the plant. Turning a little wheel he said: "It takes about 15 minutes to start one of these pumps. I am turning on a little steam to sort of warm up her jacket before she gets down to hard work. A machine is like a man in a long distance race--she has to get limbered up before she is capable of her very best work. The work this engine does when she gets down to business is to take 500 gallons of water out of the river every revolution of her driving wheel and start it on its way to Allegheny. She runs at the rate of 15 revolutions per minute, and you can easily see that she has no snap, but earns every cent of her wages."

Diving down into the 'basement Mr. Hodge turned a valve wheel a part of the way round, and then went up stairs and turned on a little steam at the main valve. Then the ponderous driving wheel, which weighs a trifle over 28 tons, began to revolve slowly. Down into the basement he went again to open the intake valve a trifle more and then up to the main steam valve to give her a little more steam. With running about, turning a little wheel here and there, several assistants also helping with the work, it was fully 15 minutes from the time the first steam had been turned on until the big machine was running at regulation speed and doing a regulation amount of work.--Pittsburg Dispatch.

Boston's Great Man.

"Boston may be the center of culture of the United States, but I found no evidence of that fact in my first trip to the Hub," remarked the young commercial traveler. "The culture may be there all right enough, but the Bostonians with whom I came in contact seemed less proud of it than of a certain other feature of the town. When I landed in Boston, I approached a policeman and asked him to direct me to a good hotel. He mentioned a good house to me and added, 'On your way up to the hotel you'll see the house where John L. lives.' 'John L. who?' I asked, very stupidly. 'Sullivan, of course,' said he, with a look of supreme pity for my ignorance.

"A little farther on I met a fellow whom I knew slightly. 'Come, have a cigar,' said I. He said he hadn't time, but he told me where I could get a good cigar. 'It's a little store in the middle of the next block. By the way, see that house on the other side of the street? That's where John L. lives.' I passed on to the cigar store. 'They tell me I can get a good cigar here,' I remarked. 'That's right,' said the man. 'Stranger in the city?' 'Yes.' 'Well, that house over there--that's where Sullivan lives.' "Conductors, bellboys, business men, elevator boys, clerks, barbers, bartenders--everybody called my attention to that house during my stay. He was the only great man to whom the natives saw fit to call my attention."--Philadelphia Record.

Shark Charmers.

In the Persian gulf the divers have a curious way of opening the season. They depend implicitly upon the shark conjurers and will not descend without their presence. To meet this difficulty the government is obliged to hire the charmers to divert the attention of the sharks from the fleet. As the season approaches vast numbers of natives gather along the shore and erect huts and tents and bazaars. At the opportune moment--usually at midnight, so as to reach the oyster banks at sunrise--the fleet, to the number of 80 or 100 boats, puts out to sea. Each of these boats carries two divers, a steersman and a shark charmer and is manned by eight or ten rowers. Other conjurers remain on shore, twisting their bodies and mumbling incantations to divert the sharks. In case a man eater is perverse enough to disregard the charm and attack a diver an alarm is given, and no other diver will descend on that day. The power of the conjurer is believed to be hereditary, and the efficacy of his incantations to be wholly independent of his religious faith.--Frank H. Sweet on "Pearl Seeking," in Lippincott's.

Abyssinian Legal Pomp.

The lord chief justice of Abyssinia was a cheery old gentleman, dressed in a huge black hat, green silk handkerchief tied round his head underneath the hat, black silk cloak embroidered with gold, smart purple silk shirt underneath and continuations of the fairest linen. This representative of the law was also armed with a long sword in a red scabbard, and his squires running alongside carried his rifle and gold mounted shield. Altogether he was a most imposing figure.--St. James Gazette.

Summer Havens.

Illustrated information about America's popular summer resorts is being distributed by passenger and ticket agents of the Pennsylvania lines. It includes descriptions of leading places of summer sojourn along the coast, in the mountains of the east, and in the lake region and Northern Michigan, all of which are within easy reach over the Pennsylvania route. For a copy please apply to the nearest Pennsylvania lines ticket agent, or address your requests to J. K. Dillon, district passenger agent, Pittsburg, Pa.

Beautiful Winona.

Winona lake, Indiana, (formerly Eagle lake) is an attractive summer haven on the Pennsylvania lines near Warsaw, Indiana. As the site of Winona Assembly and Summer school, this resort has grown into popular favor very rapidly. Improvements made on the two hundred acres of romantic woodland which stretches nearly two miles along the eastern shore of Winona lake, a beautiful sheet of water, include all the comforts and conveniences for a highly enjoyable sojourn. Ample facilities are at hand for satisfactory entertainment at reasonable rates at the commodious hotel which adjoins the railway station at the entrance to the grounds, in cosy cottages, or in tents as may be preferred.

Persons who may desire to combine devotion, entertainment and instruction with rest and recreation will find Winona lake the ideal spot for invigorating both mind and body by instructive entertainment and study and health-giving recreation. The educational work of the Summer school is in charge of well known instructors. The college halls are equipped with all required paraphernalia; the large auditorium in which the Assembly meets, and in which prominent lecturers are heard during the season, has a seating capacity of over 3,000. An amphitheatre, race track and other facilities for athletic pastimes are provided. The fishing, bathing and boating are fine, the large fleet of boats being of the best.

The season of 1898 will open May 15. Commencing on that date excursion tickets with 15 day limit will be on sale via Pennsylvania lines. They may be obtained during May, June, July and August. The sale of season excursion tickets will begin June 1, and continue daily until Sept. 30. Season excursion tickets will be good returning until Oct. 31.

Full information about the attractions at "Beautiful Winona," its Assembly and Summer school, etc., will be cheerfully furnished all who address Mr. Sol. C. Dickey, secretary, Winona Lake, Ind. Inquiries about excursion rates, time of trains, etc., should be addressed to passenger and ticket agents of the Pennsylvania lines or to F. Van Dusen, chief assistant general passenger agent, Pittsburg, Pa.

The Press OF THE NEWS REVIEW

Put in your order NOW if you want up-to-date work delivered promptly.

UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent working hours, and union labor employed.

PATRONIZE UNION CLERKS.

All members of the R. C. N. P. A. can show this card. Ask for it when making your purchases.

UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark when found on the sole or lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL.

The Journeymen Tailors' Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS.

This Label is about an inch and a half square, and is printed on buff-colored paper. It is placed on every union made hat before it leaves the workman's hands. If a dealer takes a label from one hat and places it in another, or has any detached labels in his store, do not buy from him, as his labels may be counterfeit, and his hats may be the product of scab or non-union labor.

UNION MADE CLOTHES.

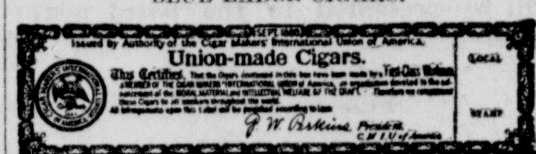

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

BICYCLE LABEL.

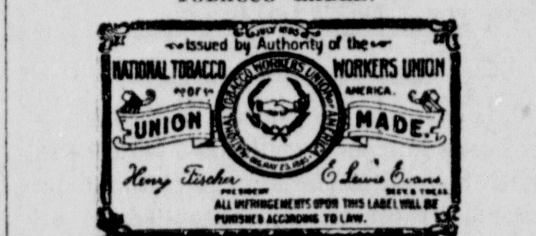

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold. The Label will be placed on the upper front side of the tube that receives the seat post.

BLUE LABEL CIGARS.

This label is printed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U. S. revenue label on the box, as the latter is nearly of a similar color.

TOBACCO LABEL.

The above Label, printed on blue paper, will be found on all plug tobacco and on the wrappers of chewing tobacco manufactured in union tobacco factories.

UNION BREAD AND CRACKERS.

This is a full size facsimile of the Label of the Bakers' and Confectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions, and in clean and healthy bakeries. Following is the confectioners' and cracker Label:

THE NEWS OF WELLSVILLE.

BOWERS WANTS MONEY

That He Paid to the City When He Was Arrested,

BECAUSE HE WAS THERE

When Ordered to Appear at City Hall, but the Mayor Did Not Appear to Try His Case—A Sensational Matter, Much Like a Tangle, Appears in Council.

Councilmen Cooper, Bowers, Michaels, Stevenson, Rand, Johnston, Goetz and Wells were present when council convened last evening for what proved to be a very interesting session.

President Michaels announced that council was ready to take action on any appointments Mayor Dennis might see fit to make, but that gentleman could not be found about the building. Johnston meantime sat reading the paper in search of war news. Looking up suddenly he asked:

"Does anyone know where the Spanish fleet is?"

Someone volunteered the information that it had returned to Spain, while Mr. Johnson seemed to think they were all at sea.

The argument came to an end when William Farris, of Cleveland, asked permission to present the claims of his street sweeper. He talked about singing birds and gentle spring, and said the time for Wellsville to buy had come if it expected to have any benefit from the sweeper, showing that the cheapest method of cleaning streets was by a sweeper. After asking that council consult their constituents he retired with a bow that will go down in councilmanic history.

By this time Clerk Davidson had found the mayor and returned with the report that the list of appointments was not yet ready.

A sigh swept through the chamber, but was lost in the hall when Attorney Boyd arose, and, on behalf of O. P. Bowers, Lou McCoy, Abe Byers, Will Jackson and William Jones, asked that the money paid into the treasury by his clients on or about Feb. 1 be returned. He claimed the money was merely a forfeit for their appearance and they had appeared at the appointed time, but the mayor had not been there. Mr. Boyd was supplied with authority, and reading from the statutes his grounds for making the request, made a strong argument.

President Michaels was evidently astonished, but turning to Solicitor Wells asked for an opinion.

"My attention was called to this matter some time ago," he replied, "and I have looked into it carefully. The taking of forfeit money is a common custom, but it is one which the courts severely condemn, because it acts almost the same as a bribe. Watches, jewelry and other articles of value have been placed in the hands of officials on occasion of arrest, and if the individual does not see fit to appear, the articles are not handed over to the court to be turned into money in order that the treasury may be enriched, but remain where they were first placed. If the individual fails to return he becomes a party to the broken law and cannot complain. In this case the money paid to the officers causing the arrest was placed in the hands of the proper officials, and no bribery was thought of, but if it can be proved that these individuals did put in an appearance at the specified hour and place they did not forfeit the money, and the city has no right to it."

The question as to whether the city had received the money was raised, and Clerk Davidson said the mayor had never itemized his receipts, but he believed the mayor's receipt for that month contained an amount that would justify the belief that it referred to this specific case.

"I remember well when the mayor's report was read, and noting that the large amount of fines was due to the collection of \$7.40 from each of us," said Bowers. "I was interested, and I remember it well. I went to Lisbon and paid a fine there, and I don't propose to be fined twice for the same offense. I know that the taking and using of that money by the city was illegal, and I propose to have my money back. The prosecuting attorney told me when I paid my money in Lisbon that the taking of this forfeit was illegal, and the proper thing to do was to ask council for it, and if I did not get it he would help me to get it back. Gen-

tlemen, I tell you frankly, I don't propose to let the city keep my money."

"For what amount do you think the city is liable," was asked of Solicitor Wells, and he replied for \$7.40 of each amount, \$2 going to the mayor as his fee, and 60 cents to the arresting officer.

"Is not the city responsible for the mayor's acts?" was another question.

"Not for his illegal acts" came the answer.

"Who then is responsible?"

"No one but himself and his bondsmen."

Council was surprised. Here was something new. One of their number and several other parties had been caught when a gambling game was raided, and had placed in the keeping of the city a given amount of money for their appearance at a given time. They say they appeared, but Mayor Jones having been ill greatly complicated the matter.

Mr. Cooper moved that a committee be appointed to whom the whole matter should be referred. The motion carried and Councilmen Rand, Cooper, Wells and Solicitor Wells were chosen.

The events of the evening seemed to have been sensational enough for even Wellsville's council, and the session adjourned until May 19, when the tax levy will be considered. Meantime Mayor Dennis can consider his appointments.

HANDSOME IMPROVEMENTS

Are to Be Made at the First National Bank.

Keeping pace with the other improvements in Wellsville, the directors of the First National bank have resolved upon a complete change of the inside arrangements of that institution, and in a very short time the city will be able to boast of one of the most modern and convenient arrangements that can be constructed.

Andrews & Co., of Chicago, closed a contract with the real estate committee of the bank, consisting of General Riley, Dr. J. W. Hammond, S. S. Cope and Henry Aten, for the work.

The outfit from top to bottom will be of black walnut, and the trimmings will be of old copper bronze. The wickets, gate and ornaments will be of the same material. The ceiling will be of modern construction, all of iron put up in panels. The building throughout will have new wall linings to match.

ELECTED OFFICERS.

Those Who Will Serve the Veteran Association.

The following of the old employees of the Cleveland and Pittsburg were elected officers at the Pittsburg meeting: Alexander Bruce, of Cleveland, president; John Breen, of Cincinnati, vice president; S. C. D. Johns, of Cleveland, secretary; Charles E. Bruce, of Cleveland, recording secretary and treasurer; trustees, John Shimmons, R. D. Briggs, Martin Fretter, Cleveland; Norman Champney, Wellsville, and Uriah Venning, Allegheny. George McGuire, the retiring secretary, was elected honorary secretary for life.

No Business.

The Church of the Ascension club meeting was to have been held Tuesday evening, but because of the rain the attendance was small. No business was done and the usual program was omitted.

The next meeting will be held at the home of the pastor, Rev. A. C. Jones.

The Building Done.

The building that will contain the new rail cutter at the shops has been completed, and that department will soon be in operation.

It is an important addition to the shops, and when it is ready for work the railroad plant at this place can hold its own with any of them.

Ladies at a Meeting.

Mrs. M. J. Potts, Mrs. H. W. Lowry, Mrs. Joseph Paisley and Miss Ada Noble left on the morning train for New Philadelphia, where the Woman's Home Missionary society are holding their presbyterial convention.

Handsome Presents.

Miss Lorena Matthews, of Front street, was the recipient of some very handsome and valuable presents on her birthday recently. Among the number was a valuable bicycle.

Attending a Convention.

Charles Morris, Fred Mathews and Rev. C. A. Jones are in attendance at the Diocese convention of the Episcopal church, now being held in Cleveland.

Detective Love Had a Hard Time

ON SUNDAY'S COLUMBUS TRIP

He is an Official in the Second Presbyterian Church, and It Seemed Hard For Him to See So Many Unusual Scenes on Sunday.

The excursion to Columbus last Sunday caused a great deal of comment in this place, and the people who have heard of it continue to discuss the matter.

Among the parties who made the trip was Detective Love, the veteran railroad officer who has for many years been in the employ of the company. He has been in all kinds of crowds and handled men of every character, but he had an unusual experience on Sunday. The Liverpool man who insisted on riding for nothing was a hard customer to handle, yet the detective did his work well.

One feature that has not to the present appeared on the surface, is the fact that Detective Love is an officer in the Second Presbyterian church of this place, and he was much displeased with some of the actions he was compelled in his line of duty to witness. They did not accord with his ideas of the manner in which the day should be observed even though the parties were on an excursion.

GOING TO THE GROVE.

Wellsville People Will Soon Go to the Campground.

The pleasant weather has caused a number of Wellsville families to think of Spring Grove, and within a few weeks several cottages will be occupied.

It is believed the number of families going from town this year will be larger than usual, as cottages are much in demand, and parties who have never spent the summer on the hill are anxious to secure good locations.

Took a Tumble.

A well known wheelman limped home the other evening, swearing softly under his breath and dragging a badly damaged wheel.

According to the story he has an enemy and that enemy has a dog. On the evening in question the wheelman met the dog, and when the battle was over the dog was running down Main street, howling at every step, while the wheelman was picking himself up and endeavoring to find the number of broken bones.

Started From Laramie.

A dispatch from Laramie, Wyo., states that the body of L. G. Smith, who was killed by falling from his train, was shipped from that place this morning. Conductor Stewart will accompany the remains. It is expected the body will reach here Saturday morning.

Rapidly Recovering.

The many friends of Mrs. Sweeley, wife of Master Mechanic Sweeley, will hear with delight that the lady is rapidly recovering, and will soon be as well as ever. She is now able to be out. The lady has been ill three months.

Personal.

Mrs. Susanna Johnston arrived on the afternoon train yesterday from Washington, D. C. where she has been visiting since last September. She will visit with her sister, Mrs. Alf. Connell.

Messrs. Guttridge and Finley returned from the city on the afternoon train.

Mr. and Mrs. William Davidson returned to their home in Cleveland yesterday.

The wife of Captain Todd, below town, has been ill for the past few days.

Mrs. Carrie Rosenbaum and Mrs. Julius Goetz returned on the afternoon train yesterday from Allegheny where they had been attending the funeral of their mother, the late Mrs. Rauh.

Mr. and Mrs. Harvey Mick and little daughter went for a day's visit with friends in Toronto today.

Miss Lizzie Mick from the Scotch settlement was in town shopping today.

THE NEWS OF WELLSVILLE.

BOWERS WANTS MONEY

That He Paid to the City When He Was Arrested,

BECAUSE HE WAS THERE

When Ordered to Appear at City Hall, but the Mayor Did Not Appear to Try His Case—A Sensational Matter, Much Like a Tangle, Appears in Council.

Councilmen Cooper, Bowers, Michaels, Stevenson, Rand, Johnston, Goetz and Wells were present when council convened last evening for what proved to be a very interesting session.

President Michaels announced that council was ready to take action on any appointments Mayor Dennis might see fit to make, but that gentleman could not be found about the building. Johnston meantime sat reading the paper in search of war news. Looking up suddenly he asked:

"Does anyone know where the Spanish fleet is?"

Someone volunteered the information that it had returned to Spain, while Mr. Johnson seemed to think they were all at sea.

The argument came to an end when William Farris, of Cleveland, asked permission to present the claims of his street sweeper. He talked about singing birds and gentle spring, and said the time for Wellsville to buy had come if it expected to have any benefit from the sweeper, showing that the cheapest method of cleaning streets was by a sweeper. After asking that council consult their constituents he retired with a bow that will go down in councilmanic history.

By this time Clerk Davidson had found the mayor and returned with the report that the list of appointments was not yet ready.

A sigh swept through the chamber, but was lost in the hall when Attorney Boyd arose, and, on behalf of O. P. Bowers, Lou McCoy, Abe Byers, Will Jackson and William Jones, asked that the money paid into the treasury by his clients on or about Feb. 1 be returned. He claimed the money was merely a forfeit for their appearance and they had appeared at the appointed time, but the mayor had not been there. Mr. Boyd was supplied with authority, and reading from the statutes his grounds for making the request, made a strong argument.

President Michaels was evidently astonished, but turning to Solicitor Wells asked for an opinion.

"My attention was called to this matter some time ago," he replied, "and I have looked into it carefully. The taking of forfeit money is a common custom, but it is one which the courts severely condemn, because it acts almost the same as a bribe. Watches, jewelry and other articles of value have been placed in the hands of officials on occasion of arrest, and if the individual does not see fit to appear, the articles are not handed over to the court to be turned into money in order that the treasury may be enriched, but remain where they were first placed. If the individual fails to return he becomes a party to the broken law and cannot complain. In this case the money paid to the officers causing the arrest was placed in the hands of the proper officials, and no bribery was thought of, but if it can be proved that these individuals did put in an appearance at the specified hour and place they did not forfeit the money, and the city has no right to it."

The question as to whether the city had received the money was raised, and Clerk Davidson said the mayor had never itemized his receipts, but he believed the mayor's receipt for that month contained an amount that would justify the belief that it referred to this specific case.

"I remember well when the mayor's report was read, and noting that the large amount of fines was due to the collection of \$7.40 from each of us," said Bowers. "I was interested, and I remember it well. I went to Lisbon and paid a fine there, and I don't propose to be fined twice for the same offense. I know that the taking and using of that money by the city was illegal, and I propose to have my money back. LOCAL BREVITIES.

Additional local on first page.

Mrs. Will Reed, of Sixth street, is visiting friends in Uhrichsville.

Men this morning commenced the erection of a large stack at the light plant.

The street railway company are preparing to run cars next Sunday over the Pennsylvania avenue extension.

The library directors failed to meet last evening owing to the fact that a quorum was not present.

The Chevalier club will this evening entertain their friends at their rooms in the J. O. Thompson building.

Rev. S. B. Salmon, of East End, left this morning for Port Homer, where he spent the day visiting a friend who is very ill.

Chief Morley this morning placed a fire alarm box in Fourth street near Washington. The box is on a pole in front of the Pusey property.

Miss Lizzie Lane is very ill at her home in Calcutta suffering with typhoid fever. Her condition is not considered serious.

Ferd Oschmann, of Walnut street, left for the west last night. He expects to visit Camp Bushnell before he returns to the city.

There are a number of cases of measles in the city, and in the last few days it has spread considerably, but it is thought it will not become epidemic.

William Chisholm, of Lincoln avenue, has secured the contract for the erection of a large water works at Kitting. The contract is worth about \$12,000.

The members of council and newspaper men last evening after the meeting were taken to an uptown restaurant where they were treated to ice cream by Solicitor McGarry.

Contractor Floto, of the memorial chapel, is now having the pulleys used in the construction of the building, removed and taken to Steubenville. The finishing work about the building is now being done.

A local paper stated last night that two members of Company E had been turned down by the United States officers. The NEWS REVIEW said but one man had been rejected. As usual the NEWS REVIEW was correct.

There is general complaint about a crowd of loafers that make their headquarters at the corner of Fourth and Market streets. They seem to own the corner, and the language used on some occasions is extremely disgusting. The police should turn them down.

Word received from Ben Little, who is ill with blood poison at the Allegheny general hospital, states that he is slowly improving, and was able to sit up yesterday for the first time since he entered the hospital. Edward Kelly, who had an operation performed some time ago for hip trouble, is also improving.

A number of local people are purchasing all the wheat they can secure in the expectation that the price will go a great deal higher than it is at present. Yesterday afternoon two young men of the city purchased over 800 bushels, while another party has on hand no less than 1,200 bushels, and steadily refuses to sell at the price offered.

Chief Johnson last evening called the attention of council to the fact that the new policemen were not provided with a copy of the codified ordinances, and suggested that they be furnished. It is probable council will take the matter under consideration and have the police regulations printed and given to the officers, as well as a copy of the codified ordinances.
